The Clerk

County Assembly of Machakos

RE: 2025 COUNTY FISCAL STRATEGY PAPER (CFSP)

Reference is made to the Public Finance Management Act, 2012 Section 117 (1) which requires the County Treasury to prepare a County Fiscal Strategy Paper (CFSP) and submit to the County Assembly by the 28th of February each year.

Forwarded find the 2025 County Fiscal Strategy Paper as approved by the County Executive Committee for approval.

Hon. Onesmus Kuyu

CECM - Finance, Economic Planning and Revenue Management

REPUBLIC OF KENYA

COUNTY GOVERNMENT OF MACHAKOS

COUNTY FISCAL STRATEGY PAPER~ 2025

*ENHANCING SUSTAINABLE GROWTH BY STRENGTHENING ECONOMIC GAINS THROUGH
SOCIO-ECONOMIC EMPOWERMENT AND INFRASTRUCTURE DEVELOPMENT*

February, 2025

Vision Statement

A County that is a model of excellence with quality life to all citizens in a clean and secure Environment

Mission Statement

To empower the people of Machakos and transform our County into a model of excellence through good governance, service delivery and economic prosperity

Core Principles

Transparency and Accountability

Efficiency and Effectiveness

Civic Engagement

Responsiveness

Integrity

Equity

Foreword

The preparation of this County Fiscal Strategy Paper is a requirement under Section 117 of the PFM Act 2012. The document reviews the County's half year financial position and performance in the FY 2024/2025 and outlines the County government's strategic objectives, priorities, programmes, ceilings and development agenda for FY 2025-2026 and in the medium term.

The theme for this paper is *Enhancing Sustainable Growth by Strengthening Economic Gains through Socio-Economic Empowerment and Infrastructure Development*. This reflects the county's commitment to enhancing revenue collection, sustainable development, economic transformation, efficient service delivery, social welfare & equity.

This document aligns with the National Fiscal Objectives in the Budget Policy Statement 2025, Fourth Medium Term Plan (MTP IV) 2023-2027, Vision 2030, Bottom Up Economic Transformation Agenda (BETA), Sustainable Development Goals (SDGs), County Integrated Development Plan (CIDP) 2023-2027, County Annual Development Plan 2025/2026 and the Governor's manifesto.

The global economy is expected to grow by 3.3% in 2025, with inflation in OECD countries declining. Africa's economy is projected to expand by 4.1%, driven by trade integration but facing challenges like inflation and debt.

Kenya's GDP is forecasted to grow by 5.4% in 2024 and 5.6% in 2025, though 2024 growth is expected to slow to 4.7% due to floods, business uncertainty, and fiscal tightening. Key risks include debt sustainability, climate shocks, and external trade uncertainties, while opportunities lie in reform acceleration and global economic recovery.

Machakos County, with a population of 1.49 million, is a key industrial hub, contributing 7.8% to Kenya's manufacturing sector. Its economic transformation strategy focuses on infrastructure, industrialization, and agriculture, with an average GCP growth of 3.2%, ranking third among neighboring counties.

Due to budgetary constraints, tough decisions have been made in setting the sector and departmental ceilings outlined in this document for the FY 2025/2026 Budget and the Medium Term. These ceilings will serve as the foundation for detailed budget allocations, which will be submitted to the County Assembly by 30th April, 2025.

The FY 2025/2026 budget will be funded from four main sources namely; Equitable share Ksh 10.03 billion, Own Source Revenues Ksh. 3.09 billion and Conditional Allocations, Loans and Grants Ksh 0.9 billion totaling to Ksh. 15 billion

Recurrent expenditure is projected to be Ksh. 10.45 billion while Development expenditure is projected to be Ksh. 4.53 billion translating to 70% and 30% of the total budget respectively.

We sincerely appreciate the collective effort and valuable contributions from County Executive Committee Members, Accounting Officers, technical officers, the general public, and other stakeholders in the preparation of this document. A special acknowledgment goes to the County Treasury team, whose dedication and hard work, under the leadership of Chief Officer for Finance, CPA Julius Kasanga, were instrumental in putting together this CFSP.

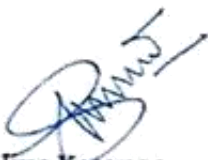

Hon. Onesmus Kuyu
County Executive Committee Member-Finance, Revenue Management, Economic Planning and ICT

Acknowledgement

The development of the 2025 County Fiscal Strategy Paper was a collaborative effort involving all County entities. Appreciation is extended to H.E. Governor Wavinya Ndeti, Deputy Governor Francis Mwangangi, and County Secretary Dr. Muya Ndambuki for their support.

Special recognition goes to Mr. Onesmus Kuyu, CECM-Finance, and his team for leading the process, along with County Executive Committee Members, Chief Officers and the relevant technical officers.

Gratitude is also expressed to the County Budget and Economic Forum (CBEF), public, stakeholders, and staff in the Directorate of Budget, Accounts, Economic Planning and the relevant technical officers for their dedication and invaluable contribution towards this paper.

CPA Julius Kasanga
Chief Officer – Finance

CHAPTER ONE

INTRODUCTION

1.0 COUNTY FISCAL STRATEGY PAPER OVERVIEW

1. The County Fiscal Strategy Paper (CFSP) outlines the County Government's strategic framework and priorities for a given Financial Year and in the Medium Term. It is usually developed by the County Treasury and serves as a guide for the County government's budget process and acts as a key decision-making tool around resource allocation and spending priorities.
2. The fiscal strategy paper contains Performance Reviews, Economic analysis, Revenue projections, Expenditure priorities, Sector ceilings, Fiscal risks and constraints, Fiscal Responsibility, Alignment to National Objectives and with other County policy documents, Public Participation report and how the County plans to manage its Pending bills over the Medium term.
3. The fiscal strategy paper contains the following elements:
 - **Economic analysis:** An overview of the current economic situation in the County, including economic performance, trends and projections.
 - **Revenue projections:** An estimate of the expected revenue sources for the County i.e. Equitable share, Own Source Revenue, conditional grants and other sources of income.
 - **Expenditure priorities and ceilings:** A statement of the County Government's expenditure priorities for the coming financial year, including a breakdown of planned expenditures by sector and program.
 - **Fiscal risks and constraints:** An assessment of the potential risks and constraints that could impact the County Government's ability to meet its expenditure priorities, including external factors such as economic shocks or internal factors such as budgetary constraints.
 - **Alignment with other policy documents:** The CFSP strategies should align with the National Development Agenda, Regional and International Development Frameworks, County Integrated Development Plan (CIDP) 2023-2027 and Annual Development Plan (ADP) 2023.

- **Public Participation report:** This is the input received from the public on the projects they need implemented in their various villages, wards and Sub-counties.

1.1 Public Participation

4. In accordance with Section 117(5) of the Public Finance Management Act, 2012, the County Government shall incorporate input from various stakeholders in the development of the 2025 County Fiscal Strategy Paper.
5. To facilitate this, the County Treasury conducted public participation from 14th to 20th February, 2025, as outlined in the report and advertisement as presented in **Annex I and II** respectively.
6. On February 14, 2025, village consultative meetings were conducted by the County Treasury in conjunction with the County Administration department in the 239 villages. At the village level, citizen feedback was gathered and later presented at the Sub-County meetings held from February 17 to 20, 2025.
7. These Sub-County meetings were facilitated by the County Treasury, with support from the County Executive Committee Members, Chief Officers, the Citizen Engagement Department, County Administration, and the County Budget and Economic Forum (CBEF). The CBEF includes state and non-state actors representing the business community, civil society organizations, faith-based organizations and private sector professionals.
8. During these meetings, local representatives presented the community's top 10 priority projects and programs, extracted from the village reports. These priorities were required to align with the County's development agenda, particularly the County Integrated Development Plan (CIDP) 2023-2027 and the Annual Development Plan (ADP) 2025/2026.
9. The Sub-county forums were predominantly attended by individuals aged 36 and above, who accounted for 76% of participants, while the youth comprised 23%. Women made up the majority at 57%, with men representing 42%. Additionally, People Living with Disabilities (PWD) constituted 1% of the attendees.

1.2 Legal Basis for Preparation of County Fiscal Strategy Paper

10. Section 117(1) of the Public Finance Management Act (PFMA), 2012 requires the County Treasury to prepare and forward the Fiscal Strategy Paper to the County Executive Committee for approval and subsequently submit the approved CFSP to the County Assembly, by 28th February of each year.
11. Section 117(2) of PFM Act, also requires the County Treasury to align the proposed revenue and expenditure plan to the national financial objectives in the Budget Policy Statement. (BPS)
12. The County Treasury shall incorporate in its County Fiscal Strategy Paper the financial outlook to County Government revenues, expenditures and borrowing for the coming financial year and over the medium term.
13. The preparation of CFSP and the proposed strategic policies and priorities for the financial year has taken into consideration the views and opinions of the public, interested persons/groups and other forums established by legislation.

1.3 Rationale for the Fiscal Strategy Paper

14. This strategy paper articulates priority socio-economic policies as well as sectoral expenditure programs to be implemented in the fiscal year 2025/2026 and the medium term. Specifically, the County Fiscal Strategy Paper desires to;
 - i. Specify the broad strategic priorities and policy goals that will guide the County Government in preparing its budget for the forthcoming financial year and over the medium term;
 - ii. Provide linkage with the national objectives in the Budget Policy Statement;
 - iii. Provide the financial outlook with respect to County Government revenues, expenditures and borrowing over the medium term; and
 - iv. Provide a basis for stakeholder engagement in the preparation and execution of the County priorities and budgeting.

1.4 Outline of the 2025 County Fiscal Strategy Paper

15. The report is organized into four sections as follows;
 - a) Chapter One provides an overview of the report

- b) Chapter Two outlines the recent economic development and fiscal outlook at the Global, National and County Levels.
- c) Chapter Three outlines the County strategic objectives and the various programmes that the County is implementing to achieve her objectives.
- d) Chapter Four covers the fiscal and budget framework with projected resource envelop and departmental ceilings.

CHAPTER TWO

RECENT ECONOMIC DEVELOPMENTS AND MEDIUM-TERM OUTLOOK

2.0 Introduction

16. Achieving the County's medium-term strategic objective is dependent on the performance of both the global and the national economy. This section therefore gives an overview of the recent economic developments at the Global, Domestic, County levels and the impact that these occurrences have on County economic development.

2.1 Global Economic Developments

17. The global economy is projected to remain resilient despite significant challenges, according to the Organization for Economic Co-operation and Development (OECD) *Economic Outlook (Dec, 2024)*. The Outlook projects global GDP growth of 3.3% in 2025, up from 3.2% in 2024, and 3.3% in 2026.
18. Inflation in the OECD is expected to ease further, from 5.4% in 2024 to 3.8% in 2025 and 3.0% in 2026, supported by the still restrictive stance of monetary policy in most countries. Headline inflation has already returned to central bank targets in nearly half of the advanced economies and close to 60% of emerging market economies.
19. The *Outlook* highlights persistent uncertainty. An intensification of the ongoing conflicts in the Middle East could disrupt energy markets and hit confidence and growth. Rising trade tensions might risk hampering trade growth. Adverse surprises related to growth prospects, or the path of disinflation could trigger disruptive corrections in financial markets. Growth could also surprise on the upside. Improvements in consumer confidence, for example if purchasing power recovers quicker than anticipated, could boost spending. An early resolution to major geopolitical conflicts could also improve sentiment, and lower energy prices.
20. In the advanced economies, growth in the United States remains solid, with private consumption underpinned by real wage gains. On a quarterly basis, GDP growth has also been relatively robust in the Netherlands and Spain. However, there have been weaker economic outcomes elsewhere. Hungary and Latvia were in technical recessions in the third

quarter and while quarterly output rose slightly in Germany, weak sentiment continues to weigh on investment activity.

21. Recent economic developments in emerging-market economies have been mixed. In China, GDP growth held up in the third quarter, with industrial production growth underpinned by strengthening exports, but consumer demand remains soft and the protracted correction in the real estate sector continues. Domestic demand is driving ongoing expansions in India and Indonesia, and growth has remained solid in Brazil amid stronger private consumption and government spending. In Argentina, there are tentative signs of recovery in recent months following a contraction since mid-2022.
22. In the United States, output growth is expected to continue at a solid pace. This partly reflects recent strong immigration flows that have expanded the productive potential of the economy. As labour force growth slows, the pace of private consumption is expected to moderate. Further monetary policy easing will support investment, although the impact will be partly offset by some borrowers having to refinance at higher rates than when they borrowed before. On an annual basis, GDP growth is projected to be 2.8% in 2024, 2.4% in 2025 and 2.1% in 2026. In Canada, a recovery in business investment is expected, with GDP growth projected to be 1.1% in 2024 before rising to 2% in both 2025 and 2026. Inflation in both economies is anticipated to moderate further, with both headline and core inflation projected to be consistent with central bank targets by 2026.
23. The Japanese economy is expected to experience a sharp growth rebound to 1.5% in 2025, as real wage gains, rapid profit growth and fiscal subsidies boost private consumption and investment. In 2026, GDP growth is projected to ease to 0.6%, close to estimated potential growth, amid a move towards a more restrictive macroeconomic policy mix. Strong domestic demand growth will also underpin growth in Korea, with GDP projected to rise by 2.3% in 2024, and 2.1% in 2025 and 2026. In both Japan and Korea, inflation is anticipated to stabilize around 2% in 2025 and 2026.
24. Growth in the Euro Area is projected to pick up from 0.8% this year to 1.3% in 2025 and 1.5% in 2026, with spare capacity eventually being eliminated by the end of 2026. Lower policy interest rates and the ongoing spending of the Recovery and Resilience Facility funds will support investment, and private consumption growth will benefit from tight labour

markets and further disinflation. Moves towards a more restrictive fiscal stance will however damp growth in some member states. Core inflation is projected to fall from 2.9% in 2024 to 2.4% in 2025 and 2.0% in 2026. Real income gains and the increase in public expenditure announced at the end of October will support activity in the United Kingdom, with GDP growth projected to be 0.9% in 2024, 1.7% in 2025 and 1.3% in 2026, despite higher taxation. Core inflation is projected to fall from 3.7% in 2024 to 2.8% in 2025 and 2.3% in 2026.

25. In China, economic growth is projected to ease gradually from 4.9% in 2024 to 4.7% in 2025 and 4.4% in 2026. Consumption growth will be stable but dampened by still high precautionary savings and continued weakness in real estate markets, keeping inflation low. Investment growth will benefit from monetary policy easing and stronger government spending, with the local government special bond quota being raised in November and recently announced stimulus measures likely to offer support.
26. India and Indonesia are projected to continue to enjoy rapid and broadly stable economic growth in the next two years. Rapid increases in public infrastructure spending and ongoing strong private consumption growth in India are projected to sustain real GDP growth of just under 7% in FY 2025-26 and FY 2026-27. The Indonesian economy is projected to grow by 5.1% in 2024, 5.2% in 2025 and 5.1% in 2026. Private consumption is projected to remain solid and investment to gain momentum, as business confidence improves, low inflation persists, and interest rates fall. In both economies, headline inflation is anticipated to be in line with central bank targets in 2025 and 2026.
27. The Mexican economy is projected to grow moderately, by 1.4% in 2024, 1.2% in 2025 and 1.6% in 2026, with significant fiscal consolidation in 2025 weighing on growth. While consumption will be supported by inflation declining to target in 2025, a slowdown in formal job creation will contribute to household spending restraint. In Brazil, in contrast, strong job creation and wage growth are expected to support robust household consumption gains in 2025, despite higher policy interest rates. GDP growth is projected to remain solid, with the economy expanding by 3.2% in 2024, 2.3% in 2025 and 1.9% in 2026. Inflation is projected to drop below 4% by the latter half of 2025, with monetary policy easing assumed to resume in mid-2025.

Table 1: World Economic Outlook Projections

	Real GDP Growth (%)			
	2023	2024	2025	2026

*Source: OECD Economic Outlook December 2024; *National Treasury Projection*

2.1.1 Risks to Global Outlook

28. The global economy has proved resilient. Inflation has declined further towards central bank targets, while growth has remained stable. Significant challenges however remain. Geopolitical tensions pose short-term risks, public debt ratios are high and medium-term growth prospects are too weak. Policy action needs to safeguard macroeconomic stability – through monetary policy easing that is carefully calibrated to ensure inflationary pressures are durably contained and through fiscal policy that rebuilds fiscal space to preserve room to meet future spending pressures. To boost productivity and the foundations for growth, there is need to enhance education and skills development efforts, undo overly stringent constraints to business investment and successfully tackle the structural increase in labour shortages.

29. To navigate these challenges, the *Outlook* emphasizes the need to durably reduce inflation, address rising fiscal pressures and tackle labour shortages to alleviate structural impediments to higher trend growth. Central bank policy rate reductions should continue in advanced economies except Japan. The timing and extent of reductions should be carefully judged and remain data-dependent, ensuring that underlying inflationary pressures are fully contained.

30. Decisive fiscal action is needed to ensure the sustainability of public finances, and provide the necessary resources for governments to tackle future shocks and future spending pressures. Stronger near-term efforts to contain spending growth, optimise revenues and enhance credible medium-term adjustment paths need to be the cornerstone of efforts to stabilise debt burdens.
31. Ambitious structural reforms are necessary to reinvigorate weak potential output growth. The policy mix needs to include efforts to enhance education and skills development and reduce constraints in product and labour markets that impede opportunities for investment and labour mobility. Labour shortages are already a challenge for firms in many countries, and population ageing will only exacerbate this. Policy action needs to ensure that skills evolve with demands on labour markets and that labour force participation, especially of older workers and women, rises.

2.2 Regional Economic Developments

18. Africa will need to speed on capitalizing on its immense potential to drive growth and innovation. The continent is rich in the most needed natural resources today. The deployment of the African Continental Free Trade Area (AfCFTA) represents a significant step towards economic integration and collaboration. In 2025, African countries will enhance green mineral processing fueled by the aspirations to maximize the benefits of the extractive industries and leverage robust renewable energy resources. Mineral-rich countries will seek new partnerships to advance their value-addition objectives.
19. Africa's economic prospects have improved but growth remains fragile amidst multiple global and domestic shocks. The continent's average real GDP growth is now projected at 3.2% in 2024 and 4.1% in 2025, compared to 3.0% in 2023. This represents a downward revision of 0.5 and 0.2 percentage points in 2024 and in 2025, respectively, relative to the May 2024 Africa Economic Outlook (AEO) projections. The downward revision reflects effects of multiple factors: persistent inflationary pressures, geopolitical fragmentations and weak financial flows, elevated debt vulnerabilities and high debt servicing costs, pockets of regional conflicts and insecurity, climate shocks, weak global demand, which has weighed down on Africa's exports.

20. However, Africa's projected growth of 4.1% in 2025 surpasses the world average of 3.2% and that of other regions, including Latin America and the Caribbean (2.5%), the euro area (1.2%) and the Middle East and Central Asia (3.9%). Only emerging and developing Asia will post higher growth than Africa, averaging 5.1% in 2024/2025. Average inflation is projected to remain high at 17.8 % in 2024, almost 8% points above the four-year average prior to the COVID-19 pandemic.
21. As the African Growth and Opportunity Act (AGOA) approaches its expiration in September 2025, the uncertainty surrounding its renewal poses significant challenges for investment in critical sectors such as textiles, agriculture, and the automotive industry. AGOA has been instrumental in promoting trade and economic development between the United States and eligible sub-Saharan African countries by allowing duty-free access to U.S. markets for various goods.
22. Funding challenges will however remain as African governments continue to face financing shortages, high borrowing costs, and looming debt repayments. To adapt to these challenges, African countries should implement structural reforms to diversify funding sources and their economies. The fight against illicit financial flows (IFF) should be intensified as progress here will catalyze more fiscal space for governments.
23. According Kenya Economic Update (*Dec 2024*), economic activity is expected to rebound in Sub-Saharan Africa (SSA) during 2024, as falling inflation raises the purchasing power of households in the region. Real GDP growth is expected to reach 3 percent during this year and accelerate further to 4 percent in 2025/2026. Decreasing inflation, improving external financial conditions, and expectations for additional monetary policy rate cuts are boosting business sentiment and, thus, private investment, with an expectation that these trends continue in 2025.
24. **Central Africa's** projected growth for 2024 was revised slightly downwards by 0.1 percentage point to 4.0% from the May 2024 forecast cycle while that for 2025 is pegged at 3.8%, a 0.9 percentage point below the earlier projected growth of 4.7% in the previous forecast round. The region's slight downward revision reflects slower growth in five out of the seven countries. In 2024, growth in Equatorial Guinea has been revised upwards to 5.0% from -5.8% in 2023, largely reflecting strong hydrocarbon growth due to the

operationalization of a new natural gas field. The projected rebound in growth in Equatorial Guinea for 2024 will be offset by the decline of 5.3 percentage points in 2025, which, together with the downward revision in Chad, will impact average growth for the region to 3.8% compared with 4.7% in the May 2024 AEO forecast growth. The downward revision in Chad reflects the projected decline in agricultural and livestock production. In Equatorial Guinea, the tapering off in hydrocarbon production due to persistent structural weaknesses coupled with the rise in price of raw materials explains the projected decline. Central Africa remains heavily dependent on commodity exports and growth is predominantly anchored by the evolution in global commodity prices and domestic production conditions in individual countries.

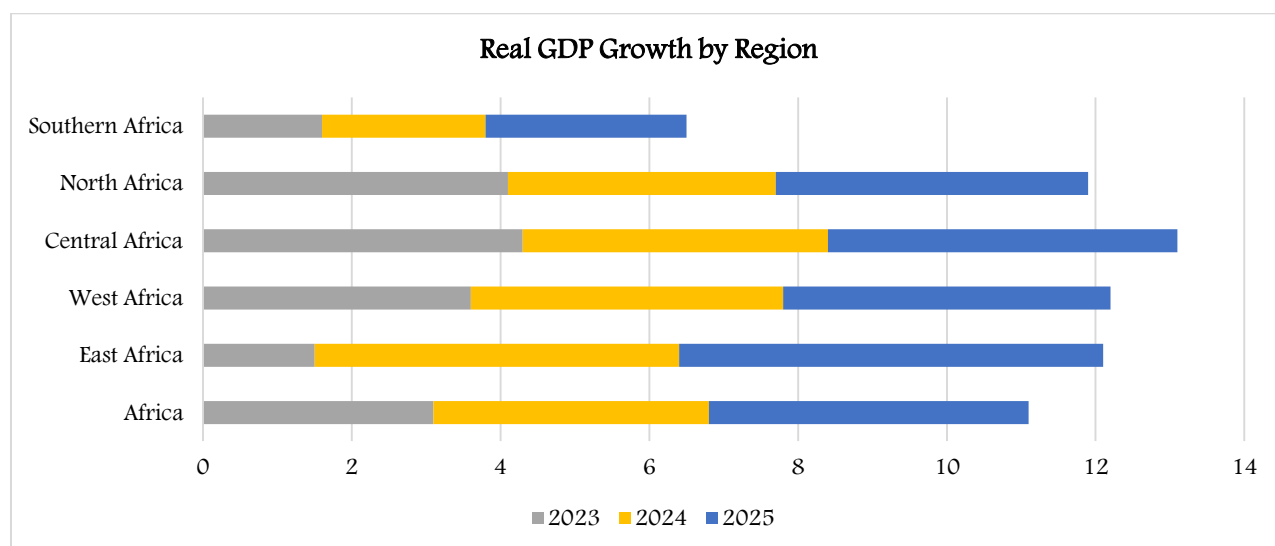

25. In **East Africa**, the projected growth for 2024 is revised downwards by 0.4 percentage point to 4.5%, reflecting deeper than previously forecast recessions in Sudan and South Sudan. The conflict in Sudan has debilitated the country's economy, with growth now projected to contract by 9.2% in 2024, representing a 3.3 percentage points decline from the 5.9% contraction previously projected in May 2024. The conflict has adversely impacted South Sudan's oil exports and hence growth. The South Sudanese economy is projected to contract significantly by 26.4% in 2024. The earlier projection was a 5% contraction in real GDP. For 2025, East Africa's growth is projected to rebound strongly, reaching 5.4% but this will still be 0.3 percentage points lower than the 5.7% forecast in May 2024. The downward adjustment to the region's growth forecast mainly reflects persistence of conflict in Sudan. Inflationary pressures and fiscal challenges in Ethiopia, Rwanda and Kenya could also weigh down on growth in these countries.

26. Compared with May 2024 forecasts, **North Africa's** growth outlook is revised downwards by 0.9 percentage point to 2.7% for 2024. Except for Mauritania where the growth forecast was revised upwards by 0.5 percentage point to 4.7% and Algeria, where the growth forecast remained unchanged at 4.0%, the outlook for other countries in the region has been lowered by between 0.6 percentage point (in Morocco) and 11.1 percentage points (in Libya). The high downgrade in Libya reflects sustained disruptions in oil production due to political strife between rival factions. North Africa has also been affected by the effects of the conflict in the Middle East.

27. Growth outlook for the **Southern Africa** region in 2024 has been revised downwards by 0.3 percentage point to 1.9%, from 2.2 percent in the previous forecasting round. This revision is mainly attributed to significant growth downgrades in Botswana and Zambia of about 3.0 percentage points due to adverse effects of the drought which has affected all sectors of the economies for these countries. In Botswana, growth has also been affected by declining diamond production. Other downgrades have been made to growth forecasts for Malawi (by 1.3 percentage points) and Mozambique (by 0.9 percentage point). Malawi's recent macroeconomic imbalances – persistent fiscal deficits, balance-of-payments challenges, unsustainable debt, and shortage of foreign exchange, which has stoked price instability – have been exacerbated by impact of severe drought on agriculture. In Mozambique, growth remains subdued due to the conflict in the Cabo Delgado and tight financial conditions. Prospects for improved weather conditions bode well for Southern Africa's growth outlook for 2025, which has been revised upwards by 0.3 percentage point, with growth in Zambia projected to benefit the most, by 1.7 percentage points to 6.2 % in 2025.

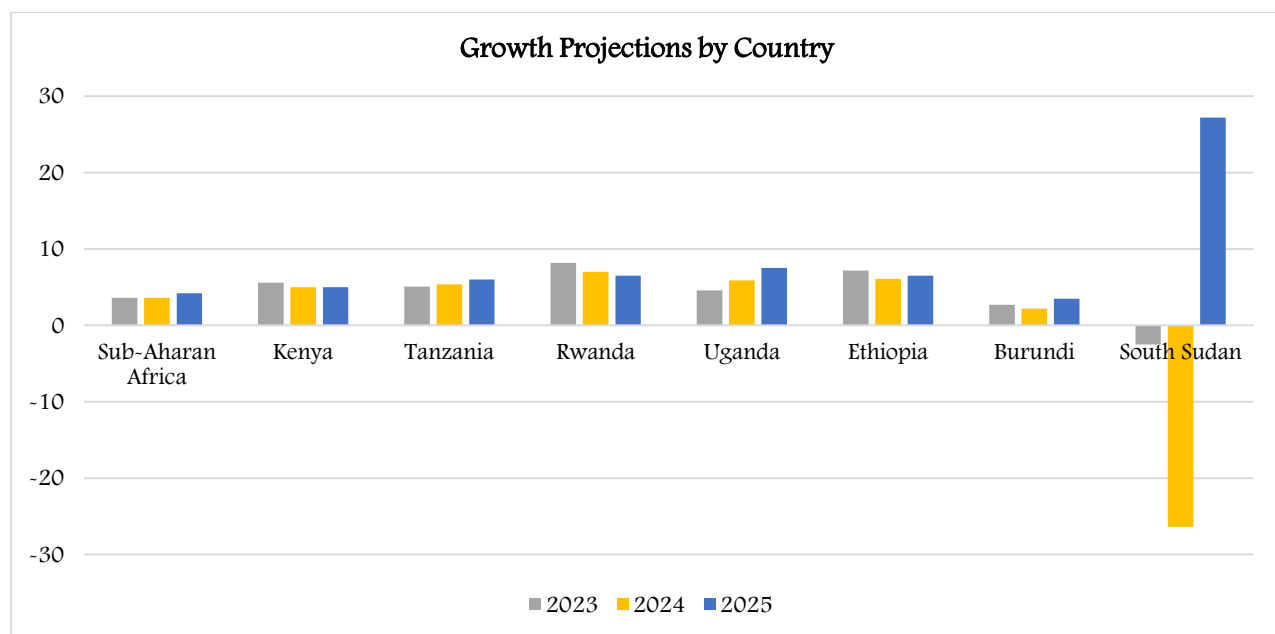

28. In **West Africa**, growth projection for 2024 have been lowered slightly by 0.2 percentage point to 4.1%, mainly reflecting growth revision in Senegal (lowered by 3.8 percentage points) and in Nigeria, the region's largest economy (lowered by 0.3 percentage point), respectively. Growth in Senegal has been downgraded due to weaker activity in the country's mining, construction, and agro-industrial sectors. For Nigeria, the revision reflects weakening domestic demand on account of monetary policy tightening and further depreciation of the exchange rate. Upgraded growth forecasts in Togo, Ghana and Guinea-Bissau were insufficient to mitigate the decline in Nigeria and Senegal.

2.2.1 Risks to Regional Outlook

29. Persistent geopolitical fragmentations could exacerbate policy uncertainty amid multiple shocks that African countries continue to face.

30. Regionally, the decision of Mali, Niger, and Burkina Faso to permanently withdraw from ECOWAS could affect these countries through restricted access to regional and international financing flows and trade channels

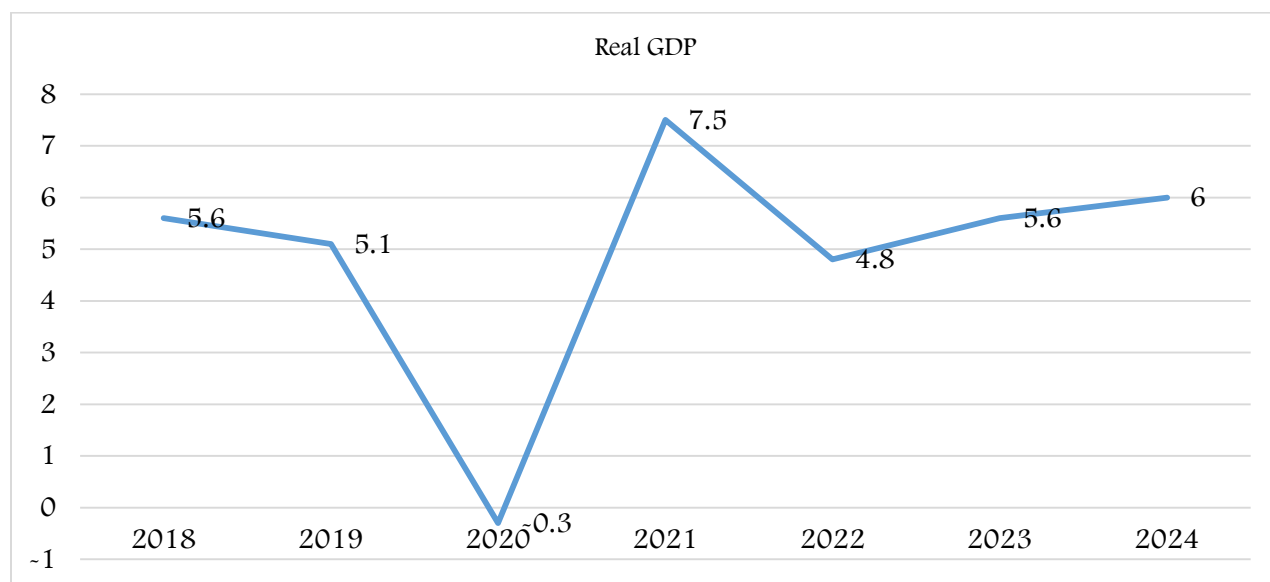

31. The effect of regional and domestic conflicts as well as emerging health pandemics are taking a toll on several African countries.
32. Climate related shocks have become frequent, taking a toll on agricultural production and productivity as Africa faces constrained financing.
33. Social unrest could have large, persistent macroeconomic effects, especially in countries with limited policy space and weak institutions. The possibility that protests turn violent or elicit a violent response from authorities endangers economic stability.
34. Climate change is increasing the regional risk of natural disasters. Such shocks lead to spikes in food prices and hunger, the destruction of infrastructure, and destabilizing migration. The region further faces a disproportionate burden from climate change, including ecosystem degradation and adaptation costs.
35. The spread of Mpox is already having a significant impact on the Democratic Republic of the Congo, where the effects are intensified by poverty, a weak surveillance infrastructure, and overall fragility. The disease has also reached other parts of central and eastern Africa and is likely to spread further.
36. Volatility in global financial markets, which remain sensitive to news about monetary policy in advanced economies
37. Intensification of conflicts and volatility in commodity prices. An escalation of conflicts in the Middle East and in Ukraine could lead to significant increases in the prices of energy, imported foodstuffs, and fertilizers, as well as global financial market turbulence.
38. A continuation of the recent trends of weakened international cooperation, greater protectionism, and a generally more inward approach to economic policy may disrupt trade. Fragmentation may also further complicate the provision of official aid to the most fragile countries in sub-Saharan Africa, on top of its projected global recessionary effect.

2.3 Domestic Economic Developments

39. In the domestic scene, Kenya's GDP is projected to grow by 5.4% in 2024 and 5.6% in 2025, driven by services and household consumption. Inflation is expected to fall to 6.2% in 2024 and 5.5% in 2025, as food and global inflation both decline. Monetary policy is expected to be accommodative due to projected stable inflation and exchange rates. The fiscal deficit is projected to narrow to 5.9% of GDP in 2024 and 5.0% in 2025 in response to a revenue-led fiscal consolidation program.

40. While inflation is receding, from a high of 6.9 percent in January to 2.8 in November 2024, the Kenyan shilling has stabilized after appreciating almost by 20 percent earlier in the year and is one of the best performing currencies in EMDEs.
41. Despite overall improved macroeconomic conditions, Kenya's GDP growth has been decelerating in 2024, following a strong cyclical rebound in 2023. Real GDP expanded by 5.0 percent during the first quarter (Q1-24), year-on-year (y/y), and by 4.6 percent during the second quarter (Q2-24), compared to 5.6 percent for the full year of 2023.
42. Kenya's real GDP is projected only to gradually pickup in the medium term; structural imbalances still hinder Kenya's goal of sustained and inclusive growth that create more and better jobs for its population. Growth in 2024 is estimated at 4.7 percent, a downward revision from the June 2024 economic update following headwinds that have already impacted headline growth during the year including severe floods in Q2-24, subdued business sentiment following the mid-2024 protests, a tighter monetary policy, and ongoing fiscal consolidation.
43. Looking ahead, Kenya is projected to grow by 5.1 percent on average in 2025-2026, assuming only a gradual pick up of private investment, export growth, and resilient private consumption. To sustain inclusive growth with more and better jobs, Kenya should address structural challenges, including ones related to fiscal sustainability, governance, weakening exports, lagging productivity growth, and vulnerability to climate shocks.
44. The current account deficit is projected to narrow to 4.6% of GDP in 2024 and 4.5% in 2025 as a recovery in global trade reduces the trade deficit.

Figure 3: *Kenya's Economic Performance Over the Years*

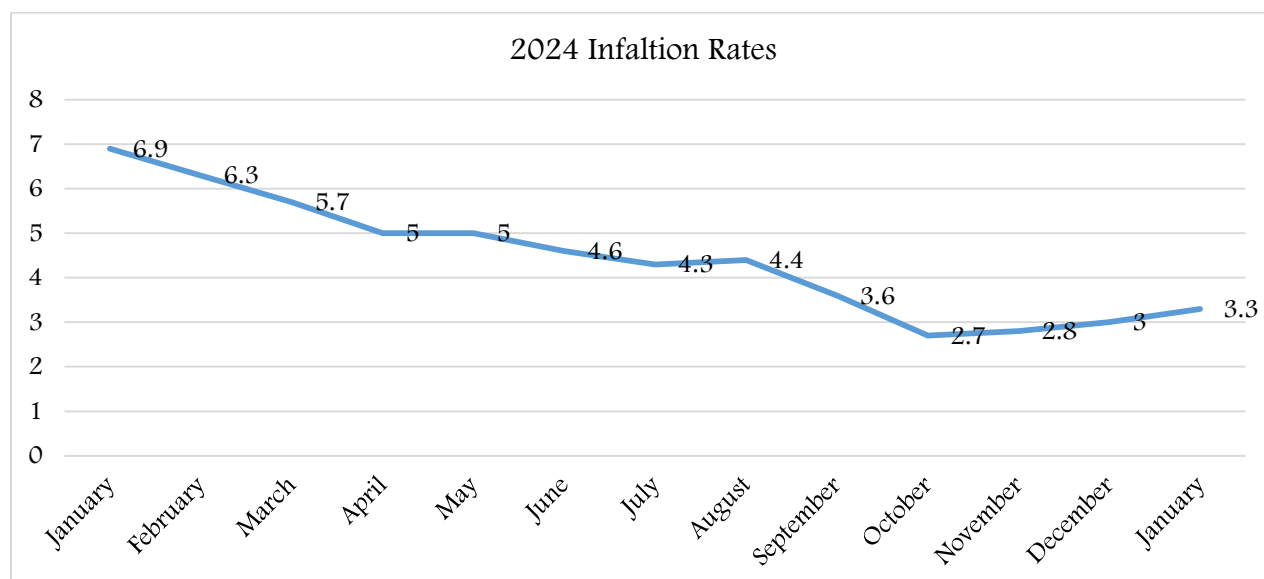

Inflation

45. Kenya's annual inflation rate rose for the third straight month in January 2025, reaching a four-month high of 3.3%, up from 3% in December. Still, inflation remained below the 5% midpoint of the central bank's target range for an eighth straight month. Prices of food (+6.1% vs +4.8% in December) and transport (+0.7% vs +0.1%) were the key factors behind the acceleration of inflation. Core inflation, reflecting underlying price pressures and published for the first time, was 2% in January, compared with 2.2% in December, while non-core inflation rose to 7.1%, from 5.2% in the prior month.

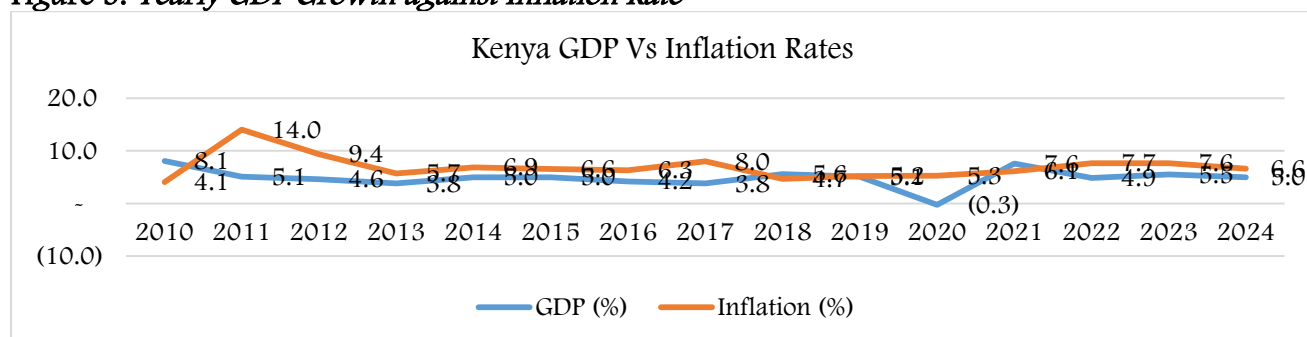

46. The most important category in the Consumer Price Index is Food and Non-Alcoholic Beverages (33 percent of total weight). Housing, Water, Electricity, Gas and other Fuels account for 15 percent; Transport for 10 percent; Restaurants and Accommodation Services for 8 percent; Communication for 8 percent; and Education for 6 percent. Alcoholic Beverages, Tobacco and Narcotics; Clothing and Footwear; Furnishings, Household Equipment and Maintenance; Health; Recreation, Sport and Culture; Insurance and Financial Services; and Personal Care, Social Protection and Miscellaneous Goods and Services account for the remaining 21 percent of total weight.

Figure 4: Monthly *Trend in inflation rate*

Source: KNBS CPI and Inflation Rates Report January, 2025

Figure 5: Yearly GDP Growth against Inflation Rate

2.3.1 Risks to Domestic Outlook

47. The outlook is subject to considerable risks, including tight global financing, drought, political instability in neighboring countries, and slow recovery of global growth. Risk mitigation measures in the medium to long term include building fiscal and external buffers (e.g., foreign exchange reserves), strengthening disaster preparedness, and accelerating structural transformation.

48. Kenya's economic outlook faces significant downside risks. Fiscal slippages could further undermine debt sustainability and private sector-led growth. To achieve fiscal targets and ensure long-term fiscal sustainability, the country must place greater emphasis on fiscal consolidation. However, for fiscal consolidation to be effective, it must be socially acceptable and equitable. This requires that consolidation efforts prioritize efficiency in the budget and increasing the overall progressivity of public finances.

49. Failure to meet fiscal targets would exacerbate Kenya's debt vulnerabilities and threaten macroeconomic stability. Delays in implementing structural and fiscal reforms may further impede private investment and employment growth, challenging Kenya's economic recovery. Continued high levels of domestic borrowing would further crowd out the private sector. Moreover, rising debt service repayments would reduce the government's ability to implement countercyclical policies during economic downturns. Maintaining fiscal discipline remains key to reducing debt accumulation and macroeconomic vulnerabilities.
50. Furthermore, Kenya's increasing vulnerability to extreme weather conditions, including droughts and floods, poses a serious threat to agricultural output and infrastructure. After experiencing two consecutive years of drought in 2021 and 2022, the long rains between March and June 2024 caused severe flooding, leading to loss of life, damage to infrastructure, the death of livestock, and displacement of people. An estimated 315 people were killed while more than 293,200 people (58,641 families) were displaced, while affecting the livelihoods of many other Kenyans. As extreme weather events become more frequent, the agricultural sector might be severely hit, worsening food security, and increasing the risk of water-borne diseases. Climate change mitigation and adaptation remain top policy priorities.
51. Externally, slower growth in Kenya's key trading partners could potentially weaken demand for Kenyan exports. This would reduce foreign exchange earnings and impact sectors like agriculture and manufacturing. Additionally, a decline in remittance inflows—an essential income source for many households—could dampen domestic consumption, limiting overall economic growth. Furthermore, international geopolitical instability may exacerbate these challenges. Kenya relies heavily on oil and fertilizer imports, hence fluctuations in oil prices due to such instability could increase fuel and fertilizer costs and overall inflation. If conflicts disrupt trade routes, it could lead to further supply chain challenges, compounding the economic pressures faced by the country.
52. Upside risks include faster than expected reform implementation and a better external environment. Fast-tracked structural reforms under the government's Medium-Term Plan (MTP) IV, faster-than-expected normalization of global financing conditions, and

continued lower international fuel and food prices would have a positive impact on Kenya's economic outlook.

2.4 County Economic Outlook

53. Machakos County's population is projected at 1,487,758 (Gross County Product, 2024) with a working population of 643,537 the sixth highest after Nairobi, Kiambu, Nakuru, Meru and Kakamega respectively. Overall poverty levels stood at 38.6% as of 2022 which is lower than the average national at 39.8%.

54. The County is strategically located within major transport infrastructures, including the Standard Gauge Railway, the Meter Gauge Railway, the Nairobi Expressway, as well as the Nairobi-Mombasa Highway and the Nairobi-Namanga Highway, all connecting the County to Nairobi City, the Metropolitan Area, the hinterland, and the Coast. These strengths have immensely contributed in making Machakos one of the leading industrial counties in Kenya. The county's contribution to overall manufacturing sector in Kenya stood at 7.8% coming fourth after Nairobi at 36.9%, Mombasa at 9.9% and Kiambu 8.4%.

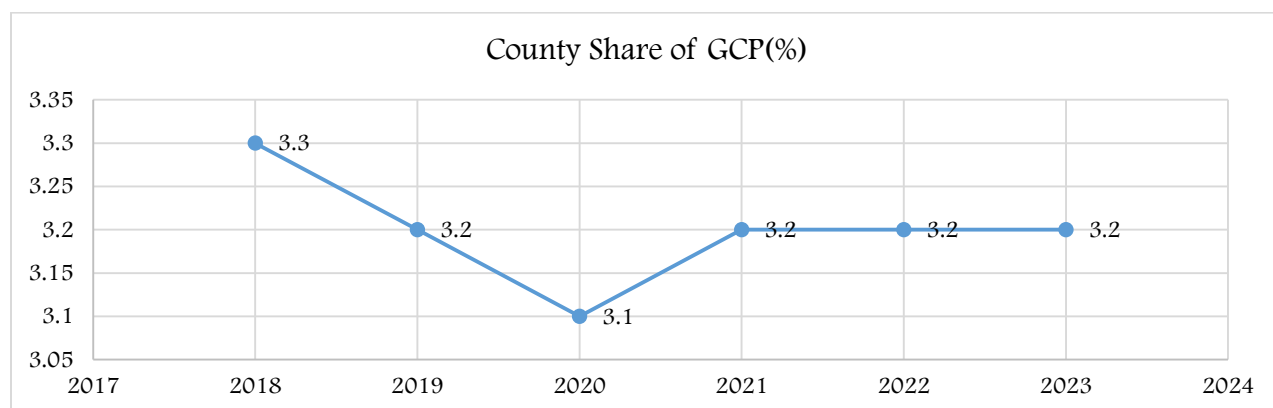

55. Machakos County was the sixth largest economy with a GCP estimate of Ksh. 445,787 million after Nairobi, Nakuru, Kiambu, Mombasa and Meru in 2023 contributing 3.2 % to the Gross Value Added. Table 2 and figure 6 below presents the County's growth trends over a five-year period.

Table 2 Machakos County GCP

Year	County Share of GCP (%)	GCP at Current Prices (Millions)	GCP at Constant (2016) Prices (Millions)	GCP Per Capita	Overall Poverty	National Poverty Levels
2018	3.3	281,481	261,484	204,049		
2019	3.2	295,593	264,352	207,881	22.4	33.6
2020	3.1	309,164	265,124	214,441	35.0	42.9
2021	3.2	349,706	292,300	240,007	35.6	38.6
2022	3.2	391,468	300,802	265,829	38.3	39.8
2023	3.2	445,785	320,405	299,637		

Source: KNBS, GCP 2024

Figure 4 : Five-Year Machakos Gross County Product

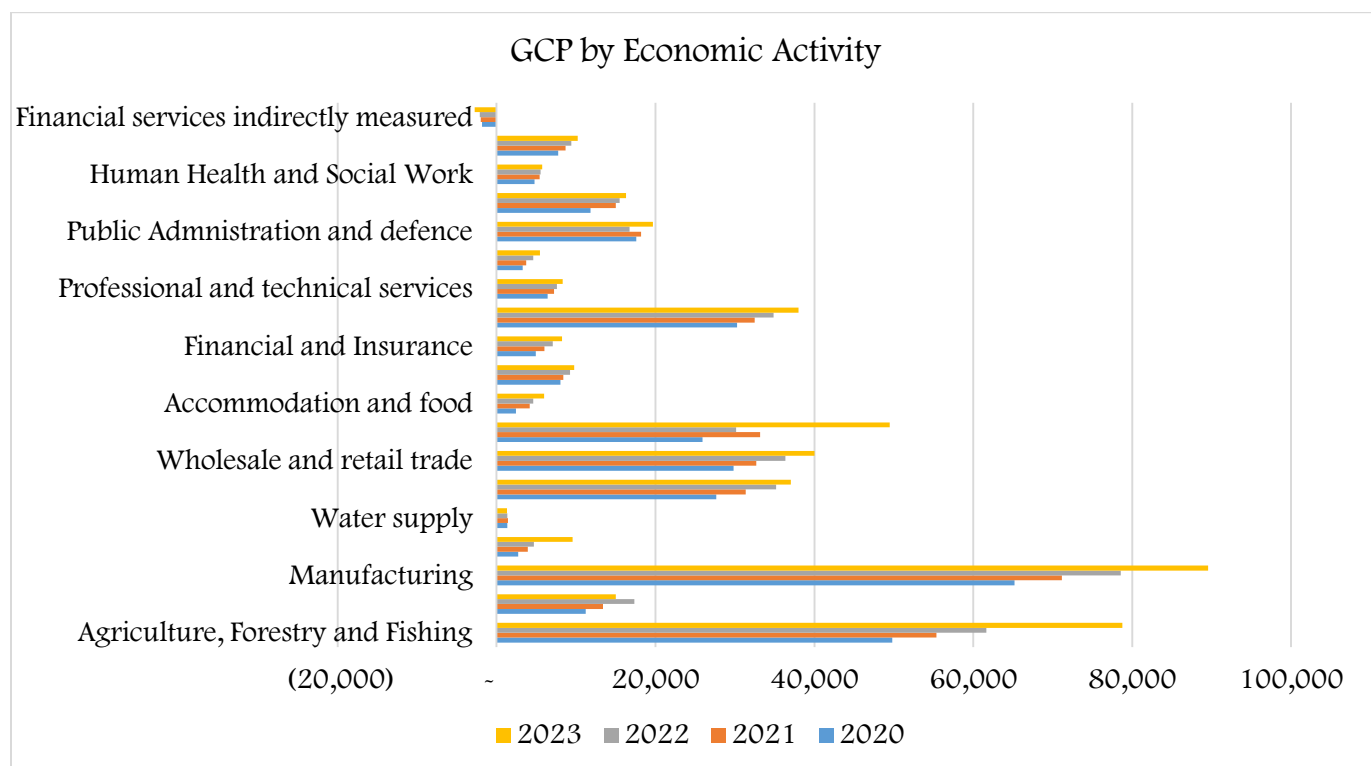

55. The major economic activities contributing to the County's growth include: Manufacturing; Agriculture, Forestry and Fishing; Wholesale and retail trade; Construction; Real estate and Transport as shown in table 3 and figure 7 below.

Table 3 :Machakos County GCP by Economic Activity

Economic Activity	2020	2021	2022	2023
Agriculture, Forestry and Fishing	49,794	55,366	61,646	78,757
Mining and Quarrying	11,205	13,385	17,349	15,025
Manufacturing	65,180	71,149	78,577	89,563
Electricity Supply	2,740	3,942	4,694	9,590
Water supply	1,361	1,422	1,376	1,315
Construction	27,664	31,373	35,180	37,049
Wholesale and retail trade	29,827	32,691	36,346	40,004
Transport and storage	25,912	33,186	30,164	49,488
Accommodation and food	2,437	4,185	4,612	5,973
Information and communication	8,028	8,400	9,266	9,792
Financial and Insurance	4,926	6,027	7,096	8,252
Real estate activities	30,279	32,468	34,880	37,986
Professional and technical services	6,434	7,231	7,584	8,314
Administrative support services	3,274	3,731	4,609	5,460
Public Administration and defense	17,587	18,207	16,728	19,700
Education	11,821	14,996	15,513	16,319
Human Health and Social Work	4,766	5,430	5,544	5,733
Other service activities	7,753	8,684	9,402	10,205
Financial services indirectly measured	(1,824)	(1,975)	(2,121)	(2,738)
Total	309,164	349,898	378,445	445,787

Source: KNBS, GCP 2024

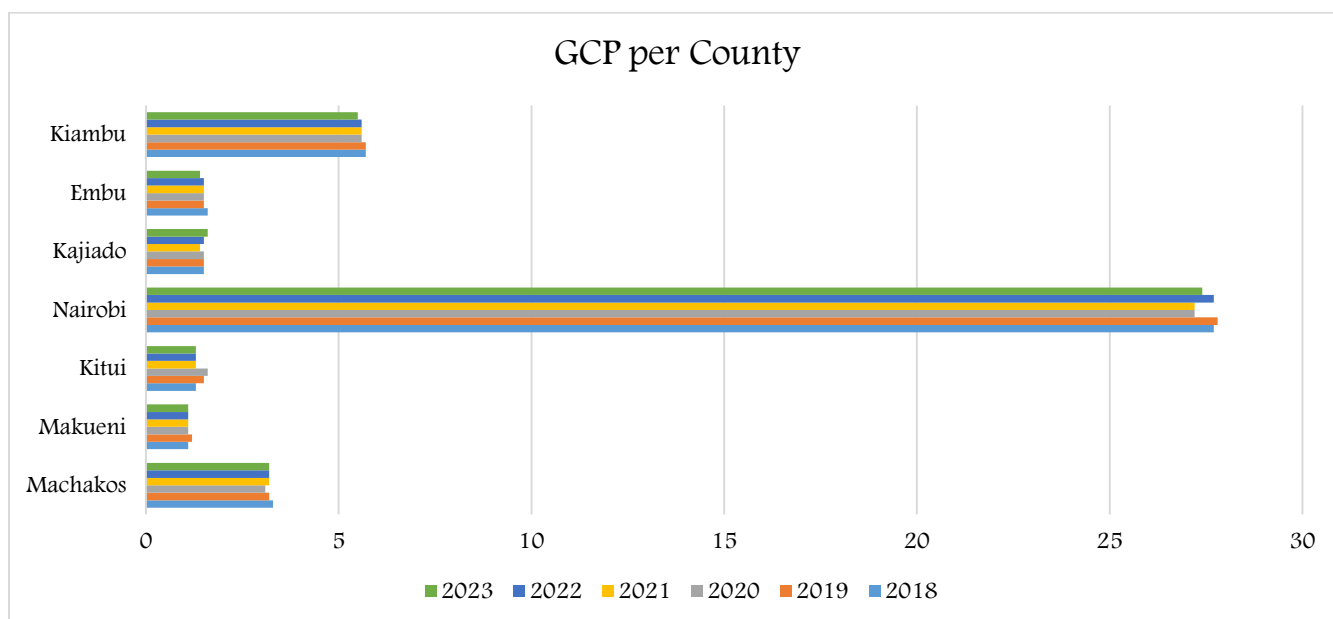

Figure 5 :Major GCP contribution by Economic Activity

56. Through strategic partnership with International Development partners, the County has embarked on a journey of economic transformation which aims at turning around the local economy through direct investments and creation of job opportunities. This will include establishment of various industries in the existing industrial parks, agriculture, health, water, infrastructure and learning institutions anchored on three pillars of Food Security, Socio-Economic Empowerment and Infrastructure.

57. Comparatively, the County performs well among its neighbours at position 3 with a 5-year average GCP of 3.2 compared to Nairobi (27.5), Kiambu (5.6), Embu (1.5), Kajiado (1.5), Kitui (1.4) and Makueni (1.1) as illustrated in figure 8 below.

Figure 6: Machakos County Economic Performance Comparative to its Neighbours

Source: KNBS, GCP 2024

2.4.1 Risks to County Outlook

1. National Economic Performance

58. Success in the implementation of the 2025/2026 financial year budget will be determined by the Country's prevailing economic environment, cognizant of the global and national risks outlined above. Occurrence of either internal or external economic shocks will have a negative impact on the performance of the County since it will affect National Government allocations to the County.

Mitigation measures: The County needs to develop and implement innovative mechanisms to increase its local revenue while at the same time ensuring austerity in public spending

2. Low Own Source Revenue Collections

59. Underperformance of revenue collection has continued to be a major challenge towards achieving the development agenda of the County. There is need to place sound policies and strategies that will guarantee optimum revenue collection to meet the anticipated budgetary requirements. Revenue collection should not only be strengthened in the traditional revenue streams but explore new avenues for revenue collection. This

therefore calls for increased budgetary provision to invest in revenue collection channels and processes to enhance overall collection.

Mitigation measures: In the medium term, the County will continue to undertake measures aimed at expanding the revenue base and increasing tax compliance through integration of technology in revenue collection and enforcement. The County has initiated the process of developing a new valuation roll which will be fast-tracked for efficiency.

3. High Wage Bill

60. Regulation 25 (1) (b) of the PFM (County Governments) requires that County wage bill shall not exceed 35% of the total revenue. The continued increase in the wage bill has arisen due to factors which are beyond the County Government. The County is disadvantaged by the current revenue distribution formula, which takes no account of inherited non-discretionary devolved costs. Similarly, the County inherited staff from the local authorities, while health workforce expenditure on compensation of employees constitutes about 51% of the total County's wage bill.

Mitigation measures: The County will put necessary measures in an attempt to curb wage bill through operationalization of approved organization structure and staff establishments, ensuring appropriate engagement of contractual staff to enhance efficiency in HR management.

4. Pending Bills

61. The County continues to face challenges due to the accumulation of pending bills, which pose a significant economic policy issue. These bills disrupt financial planning by diverting current-year resources from planned development programs and projects. Over the years, pending bills have accrued, with some dating back to the 2013/2014 financial year.

Mitigation measures: To address this issue, the government will ensure effective implementation of departmental plans which will help prevent further accumulation of pending bills.

2.5 Economic Assumptions to the Outlook

- i.** County revenue sharing formulae will not change during MTEF Period and there will be steady increase in the equitable share;
- ii.** There will be improved own source revenue collection and targets met;
- iii.** There will be austerity measures on the expenditure;
- iv.** There will be no anticipated major disaster prevalence within the MTEF period;
- v.** There will be political stability within the period;
- vi.** There will be no anticipated international security advisories that will affect the economy;
- vii.** Timely release of funds by the national government; and
- viii.** That there will be no adverse weather conditions that will affect agricultural sector and businesses.

CHAPTER THREE

Enhancing Sustainable Growth by Strengthening Economic Gains through Socio-Economic Empowerment and Infrastructure Development

Overview

62. Despite prevailing economic challenges, the County remains committed to economic transformation through investments in industries, agriculture, healthcare, water, infrastructure, and education, with a strong emphasis on Food Security, Socio-Economic Empowerment, and Infrastructure.
63. To achieve this, the Government will implement targeted strategic interventions aimed at advancing the County's development agenda, fostering sustainable growth, and enhancing socio-economic empowerment and infrastructure development to improve livelihoods.

3.1 County Strategic Objectives, Programmes and Priorities

3.2.1 Agriculture and Co-operative Development sector

64. The sector consists of Crops, Livestock, Veterinary services, Fisheries and Cooperative Development.

Vision

Machakos County to be a food secure and wealthy County anchored in innovative and competitive production, processing and marketing of crops, livestock and fisheries products.

Mission

To improve the livelihoods of Machakos County residents and ensure food security by promoting innovative and competitive crop and animal husbandry practices through creation of an enabling environment and ensuring sustainable natural resource management.

65. Agriculture remains a key pillar of food security, employment, and economic growth in Machakos County. The county government has actively supported farmers through various initiatives aimed at boosting productivity, enhancing resilience, and improving livelihoods.

Key Agricultural Programs Implemented

1. Distribution of Free Certified Seeds: Maize, beans, and green grams provided to farmers to increase crop yields.
2. Fruit Tree Promotion: Distribution of certified avocado and mango seedlings to boost fruit production.
3. Pest Control Support: Purchase and distribution of pesticides for Fall Armyworm and African Armyworm control, including PPEs for safe application.
4. Improved Poultry Farming: Distribution of KALRO improved kienyeji chicks to enhance poultry production.
5. Bee-Keeping Promotion: Supply of modern beehives to improve honey production.
6. Pasture Development: Distribution of certified pasture seeds to dairy farmers for enhanced livestock feed.
7. Livestock and Fisheries Development
 - i. Upgraded Slaughter Facilities:
 - Construction of Kimutwa and Mutituni slaughterhouses.
 - Rehabilitation of Mavoko slaughterhouse to meet hygiene and operational standards.
 - ii. Livestock Vaccination:
 - Vaccination of cattle, goats, and sheep against various diseases.
 - Rabies vaccination campaign for dogs across the county.
 - iii. Fisheries Expansion:
 - Establishment of a Fish Hatchery/Multiplication Centre to produce at least 1 million fingerlings annually.
 - Provision of 1,000 Tilapia and Catfish brooders to improve fish farming.

- Supply of a motorboat with a 15HP engine for dam fisheries monitoring and surveillance.
- Stocking of Maruba Dam with 10,000 Tilapia fingerlings to boost fish production.
- Provision of Gill nets to support Beach Management Units (BMUs) and dam fisheries.
- Supply of fish feeds for the multiplication center.

8. Water Conservation & Irrigation Development

- Construction of Earth Dams in various locations, including Nthalwaan, Kaliluni, Kathae, Mutembuku, Kilaani, Kwamusunu, Kwa Kioko Mailu, Kwa Muendo, Kwa Musati, Kaseeve, and Nguumo, to enhance water availability for farming and livestock.

9. Agricultural Infrastructure & Market Development

- Grain Aggregation Stores - Construction of Ekalakala, Muthetheni, and Ndalani grain storage facilities to reduce post-harvest losses.
- Livestock Sale Yards - Construction of Matuu, Kithyoko, Mitaboni, and Kathiani livestock sale yards to support organized livestock trade.
- Honey Processing - Establishment of a honey processing facility in Machakos Central to enhance value addition for beekeepers.
- Community Dam Fish Stocking - Provision of brooders and fingerlings to the ATC Hatchery for restocking community dams across the county.

10. Agricultural Inputs & Support

- Supply of certified agricultural seeds, fertilizers, insecticides, foliar sprays, and hermetic storage bags to improve farm productivity.

66. These initiatives align with the Governor's vision of 'Chakula Mezani, Pesa Mfukoni', ensuring food security, increased farmer incomes, and a thriving agricultural sector in Machakos County.

67. The County Government aims to enhance agricultural productivity, livestock development, veterinary services, fisheries, and cooperative development through by

implementing the following key projects and programmes in FY 2025/2026 and over the medium-term:

i. Crop Development and Management

- Certified Seed Distribution - Purchase and distribution of improved crop seeds to boost farm yields.
- Pest & Disease Control - Implementation of effective pest and disease management strategies.
- Farm Mechanization Support - Provision of farm machinery assistance to enhance efficiency and productivity.
- Extension Services - Recruitment of more extension officers, improving mobility, and embracing e-extension & digitalization for farmer training and support.

ii. Livestock Development

- Pasture & Fodder Production - Strengthening fodder production and distribution; promoting black soldier fly farming for alternative animal feed.
- Hatchery Equipment - Procurement of hatchery equipment at the Agricultural Training Centre (ATC) to support farmers in poultry production.
- Livestock Markets - Construction of new animal sale yards for improved trade infrastructure.
- Livestock Research Centre - Establishment of a research hub at ATC for livestock production and management.
- Zoning & Market Linkages - Organizing farmers into groups, zoning potential feedlot areas, and training farmers in livestock management and alternative enterprises.
- Climate Change Mitigation - Training farmers on livestock movement regulations, climate adaptation, and resilience-building strategies.

iii. Veterinary Services

- Slaughterhouse Rehabilitation: Upgrading and modernizing slaughterhouses to ensure hygiene and quality control.
- Vaccine Stockpile: Establishing a strategic vaccine stock for timely disease control.

- AI & Vet Supplies: Mass vaccination programs and procurement of Artificial Insemination (AI) and veterinary supplies, including stun guns, fridges, and freezers.
 - Regulation & Capacity Building:
 - Strict enforcement of public health & environmental laws in slaughterhouses.
 - Capacity building for meat inspectors and promotion of public-private partnerships in slaughterhouse management.
- iv. Machakos Agricultural Training Centre (ATC)
- Tree Planting: Purchase and distribution of tree seeds & seedlings to promote reforestation and agroforestry.
 - Infrastructure Renovation: Upgrading of ATC buildings & structures for improved training facilities.
 - Animal Feed Supply: Procurement of chicken and fish feeds to support livestock and aquaculture programs.
 - Institutional Equipment: Purchase of furniture & fittings to improve learning and operational efficiency.
- v. Fisheries Development
- Aquaculture Expansion: Enhancing fish production through improved fish feed supply.
 - Fingerling Production: Purchase and distribution of high-quality fish breeding stock to farmers.
 - Fishing Equipment Support: Provision of fishing boats and nets to enhance productivity and livelihoods.
- vi. Cooperative Development & Marketing
- Coffee Seedlings Distribution: Supporting coffee farmers through the purchase and distribution of high-yield coffee seedlings.
 - Training & Capacity Building: Strengthening cooperative societies through training programs and technical support.

- Cotton Farming Promotion: Encouraging cotton production by distributing certified cotton seeds to farmers.
- Pest Control for Cooperatives: Provision of pesticides to registered cooperative societies for crop protection.

68. These priority projects align with the county's agricultural transformation agenda, aiming to increase food production, improve farmer incomes, and promote sustainable rural development.

3.2.2 Health Sector

Vision

A Universal leader in provision of holistic health care and emergency services

Mission

To provide the highest attainable standards of quality health care which is dynamic, affordable, accessible, equitable, acceptable, sustainable, efficient and effective to all
Sector Goal Improved livelihoods and health care services for residents of Machakos County

69. A robust healthcare system is crucial for promoting **quality medical services, disease prevention, and overall well-being**. The Government of Machakos County has made **significant strides** in strengthening healthcare infrastructure, expanding access, and improving service delivery.

Achievements (FY 2022/2023 – FY 2024/2025)

1. Health Facilities and Infrastructure Development

- Construction & Equipping of New Health Facilities
- Completed and equipped new dispensaries (e.g., Kyamutwii, Kithangaini, Nyaani, Kionyweni, Uluutya).
- Constructed maternity blocks (e.g., Kikunuani, Kamuthanga, Ndunduni).
- Improved Level 4 Hospitals (e.g., Machakos, Athiriver, Matuu, Kathiani).
- Constructed ablution blocks, incinerators, and boundary walls in hospitals.

2. Renovation & Expansion of Health Facilities

- Completed and upgraded wards (e.g., Muthetheni, Katangi, Mukunike).
- Renovated dispensaries (e.g., Mananja, Kaewa, Syulunguni, Kitambasye, Ngulini).
- Improved hospital infrastructure (e.g., boundary wall at Machakos Level 5, palliative care unit, orthopedic technology department).
- Installed laundry machines, kitchen steam boilers in Machakos Level 5 Hospital.

3. Major Ongoing & Completed Projects (FY 2023/2024 – FY 2024/2025)

- New Masii Level 4 Hospital (KDSP).
- Hospital Management Information System (HMIS) – Phase I.
- Roof replacement at Machakos Level 5 Kitchen Area.

- Upgrades at multiple Level 4 hospitals (e.g., Kangundo, Mwala, Masinga, Matuu).
- Construction of maternity & pediatric wards (e.g., Athiriver, Kyaume, Matungulu).
- Drainage and sanitation projects (e.g., Muumandu, Masii, Ekalakala Health Centres).

Priority Healthcare Projects for FY 2025/2026 and over the medium term

The county government will continue implementing flagship projects and initiate new projects in FY 2025/2026 and over the medium term. These include:

Health Infrastructure Development

- Construction of Mother & Child Specialized Hospital
- Phased construction of Ndithini and Mavoko Level 4 Hospitals
- Construction of New Mlolongo Level 4 Hospital
- CT Scan, Theatre, Casualty, Call Rooms & Staff Lounge at Matuu Level 4.
- Construction of Radiology Block at Kangundo Level 4.
- Upgrading Kinanie, Mitaboni, Nguluni and Syokimau Level 3 facilities to Level 4
- Completion of Syokimau Health Centre Outpatient block, Maternity and Perimeter wall.
- Modification of new maternity theatre & equipping Athiriver Level 4 hospital.
- Ongoing phased overhaul of plumbing works at Kathiani Level 4.
- Purchase of specialized medical equipment such as garment machines, X-ray and other diagnostic tools.
- Construction of new Kaliani Dispensary.
- Upgrade existing hospitals with modern equipment, maternity wards, radiology units, and theatres.
- Phased Refurbishment of health facilities to meet standards as per KMPDU requirements
- Construction of New Level 4s facilities, Completion and equipping of ongoing level 3 health facilities for effective service delivery

These investments will enhance healthcare delivery, reduce disparities, and improve overall well-being for Machakos County residents.

Medical Services and Public Health

- Expand healthcare access through new Level 4 hospitals and dispensaries.
- Improve hospital sanitation, security, and drainage infrastructure.
- Invest in hospital digitalization (HMIS) and specialized equipment.
- Upgrade selected facilities as per KMPDU requirements to enhance quality care for Non-communicable diseases and decongesting the existing Level 5 referral Hospital.
- Network health information systems across all county facilities to enhance efficiency in service delivery.
- Routine maintenance of health equipment across all county facilities.
- Health promotion through outreaches and medical camps in every ward.
- Healthcare personnel Empowerment through capacity building in their areas of specialization.

Energy, Infrastructure and ICT Sector

This sector includes Energy, Roads, Transport, Public Works, Urban Planning and ICT sub-sectors. It plays an integral role in supporting sustainable development, enhancing quality of life, and promoting economic prosperity in Machakos County.

Vision

To provide cost-effective and modernized infrastructure facilities and services that support economic growth.

Mission

To provide efficient, affordable and reliable infrastructure and energy for all.

Achievements for mid-term FY 2022/2023, FY 2023/2024 and Ongoing FY 2024/2025

A. Roads, Transport & Public Works

- Major roads
 - a) The county re-carpeted Masaku Avenue Road,
 - b) Constructed Mwala Market Road Storm Water Drainage system
 - c) Repair of Potholes on Selected Paved Roads within Machakos County.
 - d) Kincar - Githunguri Road 3 kmsPhased projects: -
 - e) Mlolongo – Gossip – Police Road 4.3 kms
 - f) Kathalani – Kaviani Road 3.2 kms
 - g) Katangi - Malava -Kinyaata Road 5 kms
- Access roads - The county made routine maintenance of rural access roads opening up inaccessible areas and improving road network across the county.
- Barabara Mashinani Program (RRI) - Rehabilitation and grading of rural roads done under the opening up access to new and existing feeder roads.
- Public Transportation
 - a) Carried out maintenance of road and road-related infrastructure through marking of roads, pothole patching, installation of signage.
 - b) Re-carpeting of the Main Machakos Town Bus Park Terminus, Kionyweni-Seveni Road and others across the county, providing a safer, more efficient, and user-friendly experience for commuters while aligning with modern transportation standards and sustainability goals.

- Fleet Management: -
 - a) Conducted a comprehensive motor vehicle enhancing accountability in the management of county motor vehicle assets.
 - b) Ongoing purchase of a fleet management system to enhance accountability in the management of county fleet.

B. Public Works

1. Construction of office block at the transport department completed.
2. Ongoing supervision and implementation of all county construction works ensuring compliance with established standards of all constructions at every stage to ensure quality and safe houses for Human Occupation.
3. Construction of the Governor's official resident (phased project) as per the SRC specifications.
4. Construction of "Thin Tall Building" at the Machakos New City, which is at 70% completion rate and is set to house several county departments.
5. Routine maintenance of government buildings to prevent loss due to dilapidation of the county buildings.
6. Fencing and securing of government facilities (i.e. Garage, Head Quarters, Transport offices) to improve on security.
7. Valuation and Insurance of county offices/buildings to protect against loss of county assets.

C. Energy

1. Enhanced Street Lighting and Electrification

- The installation of 907 floodlights across 538 markets, along with 2,747 streetlights covering over 109 kilometers, has significantly improved safety and accessibility.
- Electrification of 7,200 rural households has led to multiple socio-economic benefits.
- Well-lit streets and highways have contributed to a reduction in accidents, while markets equipped with security lighting experience lower crime rates, including fewer cases of muggings and theft.
- The availability of electricity in markets has attracted increased investment, fostering economic growth and expanding trading hours.

- Households with electricity report lower energy costs compared to those using paraffin, leading to financial savings.
- Rural schools have seen improved academic performance, and healthcare services have been enhanced due to more reliable electricity access.

2. Advancing Renewable and Clean Energy

- The Department of Energy and Electrification has successfully encouraged a shift from environmentally harmful fuels such as wood and kerosene to cleaner energy alternatives, including LPG, bioethanol, biogas, electricity, and solar power.
- This transition has significantly reduced environmental degradation, improved air quality, and promoted sustainable energy use among residents.

In FY 2025/2026 and over the Medium-Term, the department will implement the following initiatives aimed at enhancing transportation, infrastructure, energy access, and public service delivery, ensuring sustainable development across Machakos County:

Roads & Transport

1. Major Roads (Flagship Projects). Tarmac major roads across the county adding to the total number of 15 kilometers of roads tarmacked as part of achieving the flagship phased projects: -
 - a) Mlolongo – Gossip – Police Road 4.3 kms
 - b) Katangi - Malava - Kinyaata Road 5 kms
2. Insurance of county vehicles & equipment to protect against loss of county assets.
3. Ward grading program
 - a) Fuel and maintenance of equipment
 - b) Hire and purchase of equipment
 - c) Grading of feeder roads to create access and connectivity of transport systems in the county.
4. Public Transport & Safety
 - a) Maintenance of road and road-related infrastructure through marking of roads, pothole patching, installation of signage
 - b) Management of parking slots, i.e. improvement parking areas to paved standards.
5. Re-carpeting of the roads across the county, providing a safer, more efficient, and user-friendly experience for commuters
6. Routine Maintenance of rural access roads for continued access to all areas.

7. Carrying out drainage works to ensure sustainable road infrastructure across the County.
8. Renovation and equipping of County Garage to be able to support the routine maintenance of all county equipment.
9. County fleet management system to ensure efficiency and enhance service delivery

Public Works

1. Completion of construction of “Thin Tall Building” which is set to house several government departments.
2. Completion of the Governor’s official resident as per the SRC specifications.
3. Insurance of county offices/buildings to protect against loss of county assets.
4. Routine maintenance of government buildings to prevent loss due to dilapidation of the county buildings.
5. Completion of a public facility at the Machakos new city
6. Completion of construction of recreation facility at the new city
7. Completion of construction of public facility at the new city
8. Completion of boundary wall at the County HQ
9. Construction of the Deputy Governor’s official resident as per the SRC specifications.
10. Proposed Construction of Toilet block and Waiting area at the Governor’s office Machakos

County Electrification and Energy

- i. Ensuring Household access to clean energy not only addresses environmental concerns but also has significant social, economic, and health-related benefits for individuals and communities.
- ii. Adoption of solar technology in county public facilities, which aligns with broader efforts to transition towards sustainable and resilient energy systems, offering numerous economic, environmental, and community-related benefits.
- iii. Installation, repair and maintenance of floodlights will create safe, secure, and functional environments in various settings, benefiting both individuals and communities.
- iv. Increasing Household connectivity to the national grid will offer numerous benefits, impacting various aspects of individual households and the broader community.

3.2.3 Public Administration

2.0 This Sector is comprised of Office of the Governor, County Assembly, Devolution, County Public Service, County Public Service Board, Office of the County Attorney, Finance, Revenue and Economic Planning sub-sectors.

3.0 The Sector is committed to improve service delivery, strengthen governance, and invest in infrastructure in order to create a better life for all its citizens.

Vision

A leading sector in legislation, public policy formulation, co-ordination, supervision and prudent resource management

Mission

To provide overall leadership and policy direction in resource mobilization, management and accountability for quality public service delivery

4.0 During the Financial Year 2023/2024 and in the medium term, the the county through the Public Administration sector was able to implement the following programmes to achieve its objectives;

- Entrenchment of performance contracting and evaluation in the public service.
- Capacity building/training for staff and verification of human capital (staff audit) to enhance effectiveness and efficiency in service delivery.
- Provision of medical insurance for the county government staff.
- Provision of insurance cover for WIBA and last expense.
- Constructing of multi-purpose sub-county offices for enhanced service delivery in the sub-counties.
- Equipping of sub county multipurpose Offices to provide staff with a convenient working environment.
- Acquisition of Motor cycle for ward administrators for efficient mobility.
- Enhancing public participation by promoting good governance, strengthening institutional structures on ethics, integrity and civic engagement.
- Enhancing collaboration and partnership with national Government agencies and other non-state stakeholders through continuous engagement and updating the

existing database of all state stakeholders operating in the County.

- Development of disaster risk profile, implementation of disaster mitigation and preparedness plans, coordinating timely responses to emergencies and stakeholders' engagements in support of emergency management in the County.
- Purchase of firefighting equipment for improved fire and emergency services
- Renovate sub county fire offices for improved fire and emergency response and service
- Acquiring of Networking and Communication Equipments (Walkie-tokie gadgets)
- Training of the inspectorate and emergency services officers as part of the departmental reforms.
- Recruitment of officers and purchase of uniforms for inspectorate and emergency services.
- Development and launch of 10 HRM policies namely

In FY 2024/2025 the departments commit to implement the following programmes:

- Promoting good governance by strengthening institutional structures on ethics, integrity and civic engagement and public participation.
- Enhancing collaboration and partnership with national Government agencies and other non-state stakeholders through continuous engagement and updating the existing database of all state stakeholders operating in the County.
- Enhancing adequate inclusion of PWDs in public forums (especially the visually impaired and the deaf) through recruitment and involvement of sign language interpreters and provision of brails and other assistive technologies.
- Enhancing adequate dissemination of public policies by developing public policy dissemination framework (standard operating procedures)
- Development of disaster risk profile, implementation of disaster mitigation and preparedness plans, coordinating timely responses to disasters and emergencies and stakeholders' engagements in support of disaster management in the County
- Continue entrenching performance contracting and evaluation in the public service,

- Capacity building and training for staff / verification of human capital (staff audit) to enhance effectiveness and efficiency in service delivery.
- Provision of medical insurance for the county government staff.
- Provision of insurance cover for WIBA and last expense.
- Phased completion of multipurpose sub county offices for enhanced service delivery in Ndithini and Matungulu.
- Construction and extension of Mavoko fire station.
- Equipping of Machakos County Call Centre
- Refurbishment and renovation of Machakos county Call Centre
- Equipping of Emergency Operation Centre & PPEs for fire fighters

The county government through the Public Administration sector aims at achieving the following in the FY 2025/2026 and in the medium-term:

- Continuous entrenching of performance contracting and evaluation in the public service,
- Capacity building and training for staff to enhance effectiveness and efficiency in service delivery.
- Establishment of digital (Paper-free) personnel registry.
- Compliance and proper Management of Disciplinary matters by reviewing & developing HRM policies and frameworks
- Provision of medical insurance for the county government staff.
- Provision of insurance cover for WIBA and last expense.
- Construction of multi-purpose sub-county offices for enhanced service delivery in the sub-counties.
- Renovation of administrative offices and construction of a perimeter wall.
- Establishment of executive boardroom.
- Enhanced security by recruiting officers under inspectorate and purchase of motorbikes/motor vehicles for efficient mobility.
- Acquisition of Inspectorate Equipment (Including band) and administration staff uniforms

- Adoption of civic education framework
- Establishment of VHF radio communication system and control centers.
- Timely disbursement of salaries to staff.
- Training of the inspectorate and emergency services officers as part of the departmental reforms.
- Optimizing collection of revenue by ensuring that the revenue system is working efficiently.
- Maintaining the already strong internal controls in Financial Management
- Training of the PFM staff on accrual accounting and implementing it.
- Carrying out Project monitoring and evaluation to ensure value for money is achieved on projects implemented.
- Ensuring that pending bills are budgeted for and paid

Education, Youth and Social Welfare

- 4 This sector is composed of sub-sectors of ECDE, Youth Empowerment, Vocational Training, Sports, Gender and Social Welfare.

Vision and Mission

To be a regional leader in provision of ECDE services, youth development, mainstream gender, sustainable social welfare support and vibrant sports activities.

- 5 Education plays a pivotal role in fostering political, social, and economic development, driving the transition to a knowledge-based economy. While the Constitution limits County Governments to Basic Education (Pre-Primary) and Vocational Training Centers (VTCs), Machakos County remains committed to enhancing education under the Elimu Bora Programme.
- 6 The youth are a key driver of innovation, economic growth, and social transformation. To unlock their full potential and contribute to County and national development goals, deliberate efforts have been made to equip and empower them.

Key Achievements in FY 2022/2023-2024/2025

Education and Skills Training

1. Basic Education (ECDE & School Support):

- Constructed 20 ECDE centers to improve early childhood education.
- Distributed teaching and learning materials to ECDE centers.
- Implemented a school feeding program in all ECDE centers to enhance nutrition and boost attendance.

2. Bursary & Student Support:

- Disbursed bursaries benefiting 39,311 students across secondary schools and tertiary institutions.
- Facilitated Kwanthanze Secondary School's participation in the Volleyball School Championships in Morocco.

3. Vocational Training & Digital Learning:

- Expanded, modernized, and equipped VTCs to enhance technical skills.
- Introduced digital learning in schools through a partnership with EIDU Africa.

4. Women Empowerment & Childcare:

- Established daycare centers in Matuu and Machakos towns to support working mothers thus ensuring equal opportunities in the job market.

Youth and Sports

1. Graded various playgrounds to enhance sports infrastructure.
2. Successfully organized the Governor's Cup, which played a key role in talent identification and development.
3. Conducted repair and maintenance of Machakos Stadium to improve its usability.
4. Successfully hosted the KICOSCA Games, bringing together participants from all 47 counties.
5. Provided training for youth across Machakos wards in various courses such as computer skills and driving.
6. Launched the construction of a Sports Complex as a phased project.

Gender and Social Welfare

1. Established the first Gender-Based Violence (GBV) center in Machakos County.
2. Equipped disability board offices to enhance service delivery for Persons with Disabilities (PWDs).
3. Conducted capacity-building programs for women, self-help groups, and PWD groups on gender and social welfare matters.
4. Collaborated with various organizations in celebrating national awareness days such as National Women's Day and National Day for PWDs.
5. Played an active role in the formation of the Machakos Youth Empowerment Program.

In the remaining period of FY 2024/2025 – 2025/2026 and over the medium term, the sector will undertake the following projects and strategies so as to achieve its objectives:

Education and Skills Training

1. Early Childhood Development & Education (ECDE):

- Construct Mavoko Day Care Center and 10 ECDE classrooms.
- Provide learning materials for the CBC curriculum.
- Develop and present Day Care, Pre-Primary, and Bursary Policies.
- Finalize the construction of ECDE classes across various wards.
- Establish MOUs with stakeholders for the development and equipping of Day Care centers.

2. Vocational Training & Youth Empowerment:

- Construct and refurbish Vocational Training Centers (VTCs), including workshops and ablution blocks.
- Disburse capitation funds to support VTC operations.
- Conduct Monitoring & Evaluation (M&E) for quality assurance in VTCs.
- Facilitate the Machakos Youth Empowerment Program and operationalize it effectively.

3. School Support & Bursary Allocation:

- Sustain the school feeding program, including the "Maziwa ya Mama" initiative.
- Ensure equitable and transparent bursary allocation to deserving students.
- Present the zero draft of Day Care and Bursary policies to the Cabinet for approval.

Youth and Sports

1. Sports and Infrastructure Development

- Continue the construction of the Sports Complex.
- Maintain Machakos Stadium and other county stadiums.
- Complete unfinished stadiums across the county.
- Organize and run the 3rd Governor's Cup to nurture and scout talent.
- Facilitate 2026 KICOSCA Games.
- Provide uniforms for the KICOSCA and Governor's Cup games.

- Provision of sports equipment and creation of a marketing plan targeting sports associations.

2. Policy and Governance

- Draft and implement sports policies and bills.
- Establish a Memorandum of Understanding (M.O.U) with stakeholders to empower youth.

3. Youth Empowerment

- Train youth in various courses.
- Construct and equip youth empowerment centers.
- Promote talent sourcing and development.
- Increase capacity building and youth sensitization on available opportunities.
- Develop a marketing plan for stadiums targeting sports associations and stakeholders.

Gender and Social Welfare

1. Empowerment of Vulnerable Groups

- Establish a revolving fund for women, youth, and Persons with Disabilities (PWDs).
- Construct, operationalize, and equip independent living and empowerment centers, rehabilitation centers, digital hubs, medical centers, children and elderly homes.
- Provide care and subsidies for vulnerable elderly persons, PWDs, and children's homes.
- Conduct capacity building and sensitization on Gender-Based Violence (GBV).

2. Civic Empowerment

- Conduct civic education and capacity building for youth and women groups.

- Partner with the National Government for registration and data capture of PWDs.
- Provide assistive devices to assessed PWDs and offer disability mainstreaming training to stakeholders.
- Promote disability mainstreaming across sectors, departments, and communities.
- Conduct capacity building for PWD caregivers, parents, guardians, and PWDs.
- Initiate monthly clinics for elderly persons.
- Improve child welfare through certification, registration, and routine inspection of children's homes and rescue centers.
- Form county gender committees at the county, sub-county, and ward levels.
- Construct a children's rescue center.

Digital Economy

1. Digital Infrastructure and Training

- Construct and equip digital hubs.
- Train youth on E-marketing and other computer-related skills.
- Support youth engagement in the digital economy.
- Facilitate connections between youth and relevant companies for digital economy job opportunities.

3.2.4 Water and Irrigation Sector

- 7 This sector comprises Water, irrigation, Sewerage, Sanitation and waste Management sub-sectors.

Vision

A national leader in the management and development of sustainable water resources

Mission

To contribute to County development by promoting and supporting water resource management to enhance safe water availability and accessibility for all

- 8 The County implemented several programs aimed at enhancing water accessibility, sanitation, and environmental conservation. These include:

- i. Desilting of dams to improve water storage.
- ii. Drilling, repairing, and equipping boreholes for sustainable water supply.
- iii. Repair and maintenance of drilling rigs to ensure efficiency.
- iv. Construction of new dams to increase water availability.
- v. Reducing distances to water access points for communities.
- vi. Rehabilitation of toilets to improve sanitation.
- vii. Procurement and planting of seedlings for environmental sustainability.
- viii. Construction of weirs to enhance water retention.
- ix. Purchase of noise meters for monitoring environmental standards.

- 9 Recognizing the importance of clean water, improved sewerage, and sanitation services, the County will implement the following initiatives in FY 2025/2026 and in the medium-term:

- i. Construction of gabions and weirs to prevent soil erosion and improve water retention.
- ii. Expansion of water reticulation networks from boreholes and dams to various access points.
- iii. Drilling and equipping of new boreholes while rehabilitating existing ones for a reliable water supply.
- iv. Acquisition of a modern hydrological machine to enhance water resource management.
- v. Construction and expansion of earth dams to boost water storage capacity.

- vi. Desilting, fencing, and securing existing dams to enhance sustainability and safety.
- vii. Establishment of mega dams with treatment plants and reticulation infrastructure.
- viii. Procurement of an administrative vehicle to support operational efficiency and monitoring.
- ix. Expansion and rehabilitation of irrigation schemes, canals, and springs for improved agricultural productivity.
- x. Construction of modern toilets in markets to enhance sanitation.
- xi. Rehabilitation of existing toilets across the County.
- xii. Mega dam reticulation to increase access to clean water.

Lands Environment & Natural Resources Sector

10 This sector comprises of the following sub sectors: Lands and Physical Planning; Housing and Urban Development, Environment & Natural Resources and Climate Change.

Vision

To be the leading sector in land administration, sustainable urban development and management of environment, natural resources

Mission:

To facilitate improvement of Livelihood through land management, sustainable urban development, access to decent housing and sustainable management of environment and natural resources.

This sector is committed to ensuring the sustainable utilization of land, urban planning, housing development, and provision of essential infrastructure to drive socio-economic growth. The following key initiatives will be implemented in FY 2025/2026 and in the medium term;

A. Lands & Physical Planning

1. Construction of a GIS Lab and County Lands Registry to enhance data-driven decision-making in urban planning, infrastructure development, and environmental management.
2. Implementation of a Web & GIS-based Physical Addressing System alongside NLIMS for efficient and transparent land administration.
3. Capacity building for institutions involved in physical and land use planning to ensure effective service delivery.
4. Public participation and engagement forums to promote inclusive decision-making in land and urban planning matters.
5. Issuance of title deeds to enhance land ownership, economic empowerment, and sustainable land management.
6. Digitization of cadastral layers to create accurate and easily accessible digital land records.
7. Development of county physical planning laws and policies to promote orderly development and sustainable land use.

8. Acquisition, repossession, and securing of public land in urban areas to enhance urban development and infrastructure.
9. Planning and implementation of Machakos New City, including Monitoring & Evaluation reviews to ensure long-term sustainability.

B. Housing & Urban Development

1. Approval and enhancement of municipal/town boards and charters to promote governance and community development.
2. Public awareness campaigns on waste management to encourage sustainable practices.
3. Maintenance of skip bins, tools, and equipment for improved solid waste management.
4. Capacity building and training of staff to enhance service delivery.
5. Promotion of clean environments through the Ng'arisha Mtaa initiative, creating jobs for the youth.
6. Support for garbage collection by providing fuel, protective gear, and solid waste management tools.
7. Urban development programs through KUSP-UDG to enhance municipal infrastructure.
8. Development of integrated urban plans, zoning regulations, and land-use frameworks for effective urban management.
9. Public land acquisition and securing of county residential houses to support urban expansion and infrastructure.
10. Renovation of staff houses to maintain safe and habitable living conditions.
11. Construction of drainages, waste material recovery facilities, and sewerage systems to enhance sanitation and environmental health.

C. Environment & Climate Change

- Construction of gabions and weirs to mitigate soil erosion and enhance water conservation.
- Tree planting initiatives to promote environmental sustainability.

3.2.5 Commercial, Tourism and Labour Affairs Sector

11 This Sector is comprised of sub-sectors of Trade, Industrialization, Investment, Tourism and Labour Affairs. One of the core functions of the sector is to create conducive environment for trade, investment, tourism and industrialization.

Vision

Making Machakos a nationally competitive County of choice for Trade, Investment and Tourism.

Mission

To promote sustainable economic growth through Trade, Industrialization, Tourism and decent job creation

The County Government is committed to fostering a **conducive business environment** for market traders and vendors, supporting **SME growth**, promoting **investment and industrial development**, and **enhancing tourism and entertainment** as key drivers of economic growth.

Key Achievements & Ongoing Programs

1. Trade & Enterprise Development

i. Market Infrastructure Development:

- Renovation of Makadara Market Shed to improve business conditions.
- Construction and commissioning of a market cold room for vendors in Machakos Town.
- Construction of 16 new boda boda sheds to support the transport sector.
- Fabrication of 1,500 branded motorcycles and 2,000 branded outdoor parasols to support small businesses.
- Construction of an ablution block at the Weights and Measures Office.

ii. Business Support & Policy Development:

- Draft policy formulation for Machakos Pesa Mfukoni Fund to provide financial support to SMEs.
- Organization of two local and international trade fairs to promote investment and business linkages.
- Provision of working tools for Jua Kali artisans to enhance productivity.

2. Industrialization & Investment Promotion

i. Infrastructure & Industrial Development:

- Development of the County Aggregation and Industrial Park (CAIP) to promote value addition.
- Showcasing the CAIP for Expression of Interest to potential investors.

ii. Industrial Stakeholder Engagement & Partnerships:

- Engagement with key industry stakeholders, including Kenya Association of Manufacturers (KAM), Kenya National Chamber of Commerce & Industry (KNCCI), Anti-Counterfeit Authority (ACA-Kenya), and UNIDO to strengthen industrial growth.
- Drafting a partnership agreement with ACA-Kenya to combat counterfeiting in Machakos.
- Industrial liaison efforts aimed at increasing revenue from the sector following the Industry Roundtable in April 2024.
- Establishment of the Machakos Investment Authority through the Investment Coordination Bill 2024.
- Collaboration with Kenya Investment Authority (KenInvest) for investment promotion.
- Drafted agreement with Fresh Produce Consortium of Kenya (FPCK) on value chain development and export promotion.

3. Innovation & Technology Development

- ### i. Designing the Strategy for Implementation of the County Innovation Hub Program to foster technological advancement.

- ii. Partnership discussions with key agencies such as Kenya National Innovation Agency (KENIA), Konza Technopolis (KoTDA), Machakos University, Daystar University, and Kenya Climate Innovation Centre (KCIC) to enhance innovation development.
- iii. Drafted a collaboration agreement with Machakos University to drive innovation initiatives.

4. Tourism, Culture & Entertainment

i. Rehabilitation of Historical & Cultural Sites:

- Restoration of Mulu Mutisya Garden and Fort Machakos as key cultural attractions.
- Upgrading Machawood Studio to meet industry standards for film and content production.
- Partnership with motorsport organizers to host events in Machakos, generating revenue and positioning the county as a sports tourism destination.

ii. Capacity Building & Creative Arts Development:

- Participation and awards won at the annual Machakos Agricultural Society of Kenya Show.
- Collaboration in SEKEB product development workshops held in Machakos and Kitui.
- Partnership with KECOBO and the Kenya Film Classification Board (KFCB) to educate artists on copyright and intellectual property rights.
- Successfully hosted Machakos Artfest, showcasing music and dance talent across the county.

In the FY 2025/2026 and in the medium-term, the County Government through this sector proposes to carry out the following programmes and projects which aim at creating employment, enhance local business environments, and attract investors while preserving cultural heritage and promoting sustainable tourism:

1. Trade & Enterprise Development

i. Market & SME Support

- Renovation and construction of market sheds to provide a conducive business environment.
- Purchase of a double cabin vehicle to facilitate weights and measures officers in verification and calibration of weighing machines.
- Installation of cabro paving, car park shades, and perimeter wall at the Weights and Measures Office.
- Training & sensitization of market committees on the use of cold room facilities.
- Procurement of shoe shiners' workstations, motorcycle parasols, aprons for mama mbogas and salon workers to enhance small-scale businesses.
- Research on avocado policy to support avocado farming and trade.
- Machakos SME profiling to develop targeted business support programs.

ii. Infrastructure Development

- Construction of modern kiosks and bus stops along Machakos-Kitui road.
- Construction of new boda boda sheds and refurbishment of existing boda boda sheds.
- Construction of an ablution block to improve hygiene in business premises.

iii. Policy Development & Business Support

- Development of policies for loan disbursement to SMEs.
- Organizing local and international trade fairs, trade shows, and exhibitions to promote business opportunities.
- Procurement of office furniture, general office supplies, and IT equipment for departmental operations.

2. Industrialization & Investment Promotion

- Completion of the County Aggregation and Industrial Park (CAIP) to promote value addition.
- Second showcasing of CAIP to attract investors.
- Operationalization of CAIP to support industrial development.

- County-wide technical training for farmers, aggregators, and exporters on Sanitary and Phytosanitary Standards.
- Development of County Industrial Masterplan, policies, and an industrial database.
- Industrial liaison program to increase revenue from industries.
- Establishment of the Machakos Investment Authority under the County Investment Coordination Bill.
- Equipping the Investor One-Stop-Shop at Machakos Investment Authority.
- Gazettement of New Machakos City as a Special Economic Zone to attract investors.
- Collaboration with KenInvest for county-wide investment profiling.
- Organizing the Machakos International Investment Conference 2026.
- Investor aftercare services to support businesses.

3. Innovation & Technology Development

- Equipping the County Innovation Hub to support tech entrepreneurs.
- Developing training modules for innovation at different levels.
- Mapping innovation activities across all sectors in the county.
- Admission of the first cohort of incubates into the Innovation Hub program.
- Organizing Machakos Innovation Week and Conference 2025 to promote creativity.
- Supporting incubated bankable innovations with mentorship and funding.

4. Tourism & Cultural Promotion

- Launch of the Machakos Tourism Circuit to promote local attractions.
- Publication of a tourism circuit booklet for distribution.
- Installation of 2 digital LED screens at Kyumvi Junction and Machakos Peoples Park for county promotion.
- Erecting 8 gantries at border points to welcome visitors.
- Constructing 'I Love Machakos' signage at Kyumvi Junction.

- Installation of directional signage along major roads to promote tourism sites.
- Participation in tourism trade shows and exhibitions to attract tourists.
- Organizing a beauty pageant across all wards to select a county brand ambassador.
- Mapping and data collection of attraction sites and hotels for easier visitor navigation.
- Conducting tourism stakeholder forums for sustainable development.
- Construction of a viewpoint at Mua Hills to offer panoramic views of Mt. Kilimanjaro and Mt. Kenya.
- Development of a Tourism Policy to guide the industry's growth.

5. Arts, Culture & Creative Industry

- Equipping Machawood Studio to support film production.
- Construction of a perimeter wall, gate, and sentry post at Machawood Studio for security.
- Capacity building for creative artists through training workshops.
- Hosting the Machakos Art Fest to showcase local talent.
- Organizing the Machakos Short Film Festival to promote Machakos as a film production destination.
- Building a model cultural center featuring an exhibition hall, a heroes' corner, and cultural homesteads.
- Refurbishing the Old DC House into a cultural museum.
- Constructing curio shops at Mulu Mutisya Gardens for cultural goods marketing.
- Rehabilitating cultural shrines to preserve indigenous heritage.
- Supporting handcraft, pottery, and basketry groups with tools and machinery.
- Developing a gaming and betting policy to regulate the industry.
- Participation in cultural events such as the Kenya Music & Cultural Festival.
- Holding the Machakos Cultural Festival to celebrate traditions.
- Documenting indigenous cultural knowledge through books and films.

6. Recreation & Parks Development

- Construction of a state-of-the-art kitchen to enhance Machakos International Convention Center services.
- Renovation of the Amphitheater for event hosting.
- Construction of an animal rehabilitation center at Machakos Peoples Park.
- Installation of animal sculptures and advertising space at Sausage Park for revenue generation.
- Maintenance of Paul Ngei and Muindi Mbingu parks to enhance public spaces.
- Procurement of storage units for extra furniture at parks.

7. Liquor Licensing & Regulation

- Development of an ICT-based liquor regulation system.
- Inspection and classification of liquor outlets across the county.
- Issuing liquor licenses to compliant businesses.
- Enforcing liquor regulations for responsible drinking.
- Establishing rehabilitation centers for alcohol recovery programs.

CHAPTER FOUR

4.0 FISCAL POLICY AND BUDGET FRAMEWORK

4.1 Resource and Expenditure Framework

4.1.2 Fiscal Responsibility Principles

57 As outlined in the Public Finance Management Act 2012, the County Treasury shall enforce the following fiscal responsibility principles.

- i. The County Government's recurrent expenditure shall not exceed the County Government's total revenue;
- ii. Over the medium term a minimum of thirty percent of the County Government's budget shall be allocated to the development expenditure;
- iii. The County Government's expenditure on wages and benefits for its public officers shall not exceed a percentage of the County Government's total revenue as prescribed by the County Executive member for finance in regulations and approved by the County Assembly;
- iv. Over the medium term, the Government's borrowings shall be used only for the purpose of financing development expenditure and not for recurrent expenditure;
- v. The County debt shall be maintained at a sustainable level as approved by County assembly;
- vi. The fiscal risks shall be managed prudently.

4.2 Performance Review

4.2.1 Fiscal Performance

58 The County Assembly of Machakos approved a budget of Kshs. 14.4 billion for FY 2024/2025 comprising of Kshs. 9.9 billion as equitable share, Kshs. 1billion conditional grants, Kshs. 2.8billion in ordinary own source revenue while FIF was estimated at Kshs. 0.7billion. In the reporting period, this was revised to Kshs. 15.6 billion mainly to on board the unspent funds in the period ending 30th June, 2024 which included Kshs. 0.8 billion return to CRF Issues and conditional grants of Kshs. 0.4 billion.

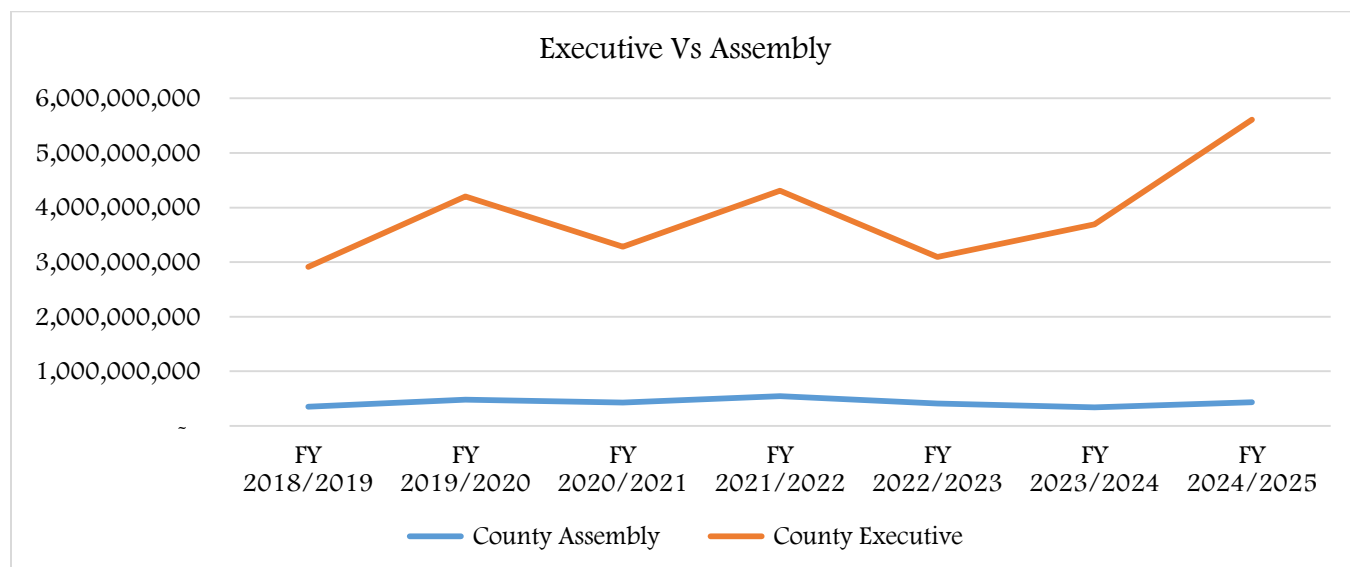

Table 4 below provides a summary of the overall County's fiscal performance as at 31st December 2024

Table 4: County Fiscal Outturn FY 2021/2022~2024/2025

	First Half Performance FY 2021/2022	Half Year Performance FY 2022/2023	Half Year Performance FY 2023/2024	Revised Estimates FY 2024/2025	Half Year Performance FY 2024/2025	Budget Execution (%)
Total Revenue	4,962,170,205	3,858,162,699	5,185,889,223	15,625,398,636	5,239,766,630	34

4.2.3 Expenditure Performance

60 The total Expenditure as at 31st December, 2024 stood at **Ksh. 6.04 Billion** which is an increase of Kshs. 2billion in the same period during the last financial year. This is due to the county's demonstrated efforts to increase its development expenditure which was Kshs. 1.25 billion from **Kshs. 0.35 billion** over the same period.

61 Overall budget execution increased to 39% in the reporting period compared to 24% over the same period in FY 2023/2024 with the department of Finance recording the highest absorption at 52% as presented in table 7 and figure 11.

62 Expenditure on compensation of employees increased from Kshs. 2.5billion to Kshs. 3.2 billion in FY 2023/2024 and 2024/2025 in the same period as shown in table 8 and figure 12.

4.3 Resource Envelope

63 As noted earlier, the County has not been able to achieve its targets on OSR over the years.

There is need for the County to look beyond the regular revenue sources as Equitable Share and include in its menu array of options for supplementing its budget like Grants, Donations, Loans, Public Private Partnerships, Bonds, Joint Ventures among others. Table 11 below presents the revenues expected to finance the County budget in the FY 2025/2026.

Table 11: Resource Envelope FY 2025/2026

*CRA Report, December, 2024

Criteria for Resource Allocation

64 The following criteria guided the allocation of resources for the County entities for FY 2025/2026 and over the medium term:

- i. **Compliance with legal Requirements** - Requirements for furtherance and implementation of the Constitution, PFM Act 2012, PFM regulations 2015 and other relevant fiscal regulatory frameworks.
- ii. **Non – discretionary expenditure** - In the recurrent expenditure category, non-discretionary expenditures take the first charge and include statutory obligations such as salaries, gratuity and pension
- iii. **CRA ceilings** – The ceilings provided by the Commission on Revenue allocation for the Executive and County Assembly have to be adhered to first before allocation to the other County entities.
- iv. **Development expenditures** are shared out on the basis of CIDP priorities as well as strategic interventions to boost revenue base and stimulate the economic growth as outlined in the National Government Policy documents, the Governor’s Manifesto and views of the Public as collected during the Public participation exercise held from 17th to 20th February, 2025.
- v. **On-going projects:** emphasis was given to completion of on-going capital projects and in particular infrastructure projects with high impact on poverty reduction, equity and employment creation;
- vi. **Conditional grants:** priority was also given to adequate allocations for donor funds both own contribution and the donors contribution as per the Budget Policy Statement provisions
- vii. **Strategic policy interventions:** further priority was given to policy interventions covering food security, access to healthcare, infrastructure, social welfare and environmental conservation

The criteria outlined above helped in developing ceilings for each County Entity as tabulated in tables 12 and 13 below.

Table 12: Summary of Budgetary Allocations FY 2025/2026

	Printed Estimates FY 2024/2025	Revised Estimates FY 2024/2025	Budget Estimates FY 2025/2026	% Allocation

4.5 Adherence to Fiscal Responsibilities

65

- i. the County Government's recurrent expenditure shall not exceed the County Government's total revenue;*

The County's total revenue is Kshs. 15billion while allocation to recurrent expenditure is Kshs. 10.5billion hence recurrent expenditure has not exceeded total revenue.

- ii. over the medium term a minimum of thirty percent of the County Government's budget shall be allocated to the development expenditure;*

As presented in table 13 above the County's allocation to development expenditure is Kshs. 4.5billion against a total budget of Kshs. 15billion which is 30% hence the county has adhered to this fiscal responsibility. In the medium term, the county has adhered to the fiscal responsibility principle by allocating 30% of its budget to development expenditure as presented in Annexes 4, 5, 6 and 7.

- iii. the County Government's expenditure on wages and benefits for its public officers shall not exceed a percentage of the County Government's total revenue as prescribed by the County Executive member for finance in regulations and approved by the County Assembly;*

PFMA Regulations 25(b) limits the expenditure on wages and benefits to not more than 35% of the total County revenues. The county has not met this fiscal responsibility requirement due to a number of factors including the inevitable huge workforce in the health sector which is more than 50% of the county's total wage bill and the need to honour Collective Bargaining Agreements.

In the medium-term, the County has put in place measures to reduce the high expenditure on personnel emoluments by regular staff audits and reviews of staff establishment which will help in identification and optimization of staffing levels.

- iv. Over the medium term, the Government's borrowings shall be used only for the purpose of financing development expenditure and not for recurrent expenditure;*

The County has not planned for any borrowings in the FY 2025/2026 hence no budget allocation for the same.

v. *The County debt shall be maintained at a sustainable level as approved by County assembly;*

vi. *The fiscal risks shall be managed prudently.*

Capital Budget execution is one of the areas of risk on Budget. The County has seen a number of projects over the years with significant cost overruns which puts a strain on the current Budget. Cost overruns on a project also means that the respective implementing agency have to re-allocate funds from other projects. Another challenge faced with regards to capital project is delays in project implementation largely due to human resource capacity, delays in procurement process and exchequer releases. □This □distort □the □outer □year's □Budget where re-allocation is needed to cater for funds for the delayed project. The county will continue to strengthen the implementation management system to address delays in project execution and cost overruns

A large percentage of the county development budget is composed of conditional grants which is mostly donor funded. Any international threat, such as financial crisis, may affect revenues of the donor countries and thus affect their ability to continue funding the budgeted projects.

Natural disasters can have a significant impact on the Budget. Whilst an emergency fund is in place to cater for such unforeseen events, it might not be enough depending on the magnitude of the disaster. The emergency fund for the FY 2024/2025 is set at Kshs. 42.9m with a projection of Ksh. 37 million in the FY 2025/2026.

Annex I: Highlights of the Issues Raised During Public Participation

Sub County	Ward	Village	Department	Project Name	Activity to be Implemented
Kathiani	Upper Kaewa	Kombu-Kiio	Health	Mithanga Dispensary	Construction
Kathiani	Upper Kaewa	Kombu-Mithanga B	Water & Irrigation	Mithanga Catholic Borehole	Drilling
Kathiani	Upper Kaewa	Kalunga-Kalunga	Water & Irrigation	Kwa Kyale market	Drilling
Kathiani	Upper Kaewa	Kalunga-Kisovo	Education	Kisovo Primary School via Kusyongumo ECDE Centre - Isyukoni road	Opening
