Challenges in Budget Implementation

The following challenges hampered effective budget implementation;

- (i) Delays in Exchequer disbursements leading to delays in projects implementation and payments;
- (ii) Lengthy procurement processes;
- (iii) High level of pending bills.

Some of the remedies to the identified challenges include:

1. Develop and implement strategies to enhance own-source revenue performance to ensure the budget is fully financed.
2. Prioritize payment of eligible pending bills in the remaining financial year.
3. Procurement process should be initiated early at the beginning of the financial year to avoid unnecessary delays.
