REVENUE RAISING MEASURES

1. Updating of the Valuation roll to match the actual land value rates as well as digitalization of the building approval process.
2. Automation and digitalization of revenue processes to curb leakages thus enhancing accountability in revenue collection and reporting and embrace a cashless revenue collection strategy.
3. Enforce performance contracts, targets and reviews for the revenue collection staff.
4. Revenue mapping to identify all the revenue generating opportunities and enhance revenue mobilization effort.
5. Separation of roles by realigning revenue administration so that billing and reporting of the different revenue streams is domiciled in their respective departments.
6. Capacity building and staff development through training to achieve efficiencies in revenue collection.
7. Equipping of the Health facilities to enable them collect significant revenue from health-related activities.
8. Restructuring and re-engineering the county corporations to enhance efficiencies in their operations and realize requisite net revenues to supplement the other revenue streams.
9. Continuous Monitoring and evaluation (M&E) to assess whether progress is being made towards achieving the expected results, identifying bottlenecks in implementation, and highlighting any unintended consequences of revenue administration.

ANNEX 2: PUBLIC PARTICIPATION IN THE BUDGET MAKING PROCESS

In our efforts to foster inclusive governance, promote transparency and accountability, enhance the quality of decision-making, and empower citizens to actively contribute to the development of their communities we conducted public participation sessions from 13th to 16th February 2023 at the village level and Sub-County levels. The sessions were organized by the County Treasury in collaboration with the Citizen Engagement Department. These sessions provided a platform for community members to voice their needs, concerns, priorities regarding the FY 2023-2024 budget and giving feedback on the impact of the projects and programmes implemented by the government.

The village-level consultations reports were compiled and presented during Sub-County meetings which were chaired by H.E. the Governor, who was accompanied by Senior County Government officials and relevant technical officers. This high-level representation ensured that all public concerns were addressed promptly and comprehensively by the appropriate technical teams.

The direct involvement of senior county officials also reinforced the accountability and transparency of the process, as well as the importance of public input in shaping the county's development agenda.

The projects agreed upon at the Sub-County level formed the basis for the development Budget estimates alongside flagship and multiyear projects.

Below is a newspaper advert of the Public participation event and a graphic presentation of public attendance.
