CHAPTER ONE

1.0 COUNTY FISCAL STRATEGY PAPER PROCESS OVERVIEW

1. The County Fiscal Strategy Paper (CFSP) is a policy document that outlines County Government's fiscal strategy and priorities for a given Financial Year. It is usually developed by the County Treasury and serves as a guide for the County Government's budget process. The fiscal strategy paper is an important document as it sets the overall policy framework for resource allocation and informs the budget-making process.
2. The fiscal strategy paper contains the following elements:
 - **Economic analysis:** An overview of the current economic situation in the County, including economic performance, trends and projections.
 - **Revenue projections:** An estimate of the expected revenue sources for the County i.e. Equitable share, Own Source Revenue, conditional grants and other sources of income.
 - **Expenditure priorities:** A statement of the County Government's expenditure priorities for the coming financial year, including a breakdown of planned expenditures by sector and program.
 - **Fiscal risks and constraints:** An assessment of the potential risks and constraints that could impact the County Government's ability to meet its expenditure priorities, including external factors such as economic shocks or internal factors such as budgetary constraints.
 - **Performance targets:** A set of performance targets that the County Government aims to achieve over the coming financial year and in the Medium Term, including targets for service delivery, revenue collection, and expenditure management.
 - **Alignment with other policy documents:** The CFSP strategies should align with the National Development Agenda, Regional and International Development Frameworks, County Integrated Development Plan (CIDP) 2023-2027 and Annual Development Plan (ADP) 2023.
 - **Public Participation report**
3. This Fiscal Strategy Paper therefore, provides a strategic framework for the County Government's budget process and will guide in decision-making around resource allocation and spending priorities for the Financial Year 2023-2024 and in the Medium Term.

1.1 County Fiscal Strategy Paper Process

4. In line with the Public Finance Management Act, 2012 section 117(5) the County Government has taken into consideration the views of various stakeholders during the formulation of the 2023 County Fiscal Strategy Paper. In relation to this, the County Treasury carried out public participation both at village and subCounty level from 13th to 16th February, 2023.

1.2 Legal Basis for Preparation of County Fiscal Strategy Paper

5. Section 117(1) of the Public Finance Management Act (PFMA), 2012 requires the County Treasury to prepare and forward the Fiscal Strategy Paper to the County Executive Committee for approval and subsequently submit the approved CFSP to the County Assembly, by 28th February of each year.
6. Section 117(2) of PFM Act, also requires the County Treasury to align the proposed revenue and expenditure plan to the national financial objectives in the Budget Policy Statement. (BPS)
7. The County Treasury shall incorporate in its County Fiscal Strategy Paper the financial outlook to County Government revenues, expenditures and borrowing for the coming financial year and over the medium term.
8. The preparation of CFSP and the proposed strategic policies and priorities for the fiscal year 2023/2024 has taken into consideration the views and opinions of the public, interested persons/groups and other forums established by legislation.

1.3 Rationale for the Fiscal Strategy Paper

9. This strategy paper articulates priority socio-economic policies and structural reforms as well as sectoral expenditure programs to be implemented in the fiscal year 2023/2024 and the medium term. Specifically, the County Fiscal Strategy Paper desires to;
 - i. Specify the broad strategic priorities and policy goals that will guide the County Government in preparing its budget for the forthcoming financial year and over the medium term;
 - ii. Provide Linkage with the national objectives in the Budget Policy Statement;

- iii. Provide the financial outlook with respect to County Government revenues, expenditures and borrowing over the medium term; and
- iv. Provide a basis for stakeholder engagement in the preparation and execution of the County priorities and budgeting.

1.4 Outline of the 2023 County Fiscal Strategy Paper

10. The report is organized into four sections as follows;

- i. Chapter One provides an overview of the report
- ii. Chapter Two outlines the recent economic development and fiscal outlook at the Global, National and County Levels.
- iii. Chapter Three outlines the County strategic objectives and the various programmes that the County is implementing to achieve her objectives.
- iv. Chapter Four covers the fiscal and budget framework with projected resource envelop and departmental ceilings.

CHAPTER TWO

2.0 RECENT ECONOMIC DEVELOPMENTS AND OUTLOOK

2.1 Introduction

11. Achieving the County's medium-term strategic objective is dependent on the performance of both the global and the National economy. This section therefore gives an overview of the recent economic developments at the global, national, County levels and the impact that these occurrences have on County economic development.

2.2 Global and Regional Economic Developments

12. The global economic growth outlook remains uncertain reflecting the impact, of the ongoing Russia-Ukraine conflict, elevated global inflation, lingering effects of COVID-19 pandemic and persistent supply chain disruptions. Global growth is projected to slow down to 2.9 percent in 2023 from an estimate of 3.4 percent in 2022 mainly driven by sluggish growth in advanced economies. The advanced economies' growth of USA, Euro Area and United Kingdom is projected to decline from 2.7 percent in 2022 to 1.2 percent in 2023.

13. Among emerging markets and developing economies, growth is projected to pick up to 4.0 percent in 2023 from an estimate of 3.9 percent in 2022. The growth profile reflects a projected recovery from deep downturns for stressed and underperforming emerging market economies as well as recovery of activities in China with the full reopening in 2023. China economy is projected to improve to 5.2 percent from 3.0 percent in 2022 (*Table 1*)

14. Growth prospects in the Sub-Saharan region are projected to remain moderate at 3.8 percent in 2023. This indicated in Table 1 below.

Table 1: Global Economic Growth (%)

Economy	2020	2021	2022*	2023**
		Actual	Jan. WEO	Jan. WEO
World	(3.1)	6.2	3.4	2.9
Advanced Economies	(4.5)	5.4	2.7	1.2
Of which: USA	(3.4)	5.9	2.0	1.4
Euro Area	(6.1)	5.3	3.5	0.7
Emerging and Developing Economies	(2.0)	6.7	3.9	4.0
Of which: China	2.2	8.4	3.0	5.2
India	(6.6)	8.7	6.8	6.1
Sub-saharan Africa	(1.6)	4.7	3.8	3.8
Of which: South Africa	(6.3)	4.9	2.6	1.2
Nigeria	(1.8)	3.6	3.0	3.2
EAC – 5	0.9	6.6	4.7	5.4
Of which: Kenya ***	(0.3)	7.5	5.5	6.1
*Estimate ** Projected *** budget estimate				
EAC – 5: Burundi, Kenya, Rwanda, Tanzania and Uganda				

Source: January 2023 WEO

15. Growth in the East African Community (EAC) region is projected at 5.4 percent in 2023 compared to a growth of 4.7 percent in 2022. This growth is supported by economic recoveries and positive growths in the East African economies.

2.3 Domestic Economic Developments/Outlook

16. Kenya's economy has demonstrated remarkable resilience and recovery from COVID-19 shock due to the diversified nature of the economy and the proactive measures by the Government to support businesses, private sector investment and appropriate economic and financial policies. The economy expanded by 7.5 percent in 2021, a much stronger level from a contraction of negative 0.3 percent in 2020 (*Table 1*).

17. The economy is expected to grow by 5.5 percent in 2022 and recover in 2023 to 6.1 percent and maintain that momentum over the medium-term. This outlook will be reinforced by the prevailing stable macroeconomic environment and the ongoing implementation of the various strategic priorities across all sectors.

2.4 County Economic Outlook

18. The County economy has remained strong and resilient despite challenging global environment and the COVID -19 shocks. Machakos County is among the top five Counties with the highest contribution to the economy which grew at an average rate of 3.9 pr cent between 2014-2019 (KNBS; 2021 Gross County Product (GCP). This was highly as result of the increased construction activities, vibrant urban areas and increased activities in the manufacturing and agriculture sectors.
19. Over the medium term the economy is expected to grow as a result of various programmes that the Government will implement across all sectors geared towards economic turnaround. Special focus will be placed on; socio-economic empowerment, food and nutrition security, climate change, water Supply, accessibility to universal health care and infrastructure development.

2.5 Risks to the Economic Outlook

20. Although the macroeconomic outlook for the County looks favorable in the immediate future, there are down side risks emanating from domestic as well as external sources. On the domestic front, risks emanate from climate change resulting in unfavorable weather conditions. This could affect agricultural production and result to domestic inflationary pressures, loss of jobs and reduction of disposable income.
21. On the external front, uncertainties in the global economic outlook have also increased which could impact on the domestic economy. These risks include: the possible worsening of the Russia - Ukraine conflict which could heighten the risk of oil and commodity price volatility and elevated inflationary pressures; effects of COVID-19 pandemic; and global monetary policy tightening, especially in the United States, could increase volatility in the financial markets.
22. The upside risk to the domestic economy relate to faster than projected rebound in economic activities both at the National and County Level that would result in higher Government revenues providing fiscal space that would support fiscal consolidation. The Government continues to monitor the domestic and external environment and

will take appropriate measures to safeguard the economy against the adverse effects of the risks if they were to materialize

CHAPTER THREE

3.0 BUILDING A RESILIENT COMMUNITY THROUGH SUSTAINABLE FOOD SECURITY AND SOCIO-ECONOMIC EMPOWERMENT

3.1 Overview

23. The Kenyan economy has demonstrated remarkable resilience and recovery from COVID-19 shock due to the diversified nature of the economy and the proactive measures by the Government to support businesses. The economy expanded by 7.5 percent in 2021, a much stronger level from a contraction of negative 0.3 percent in 2020
24. In addition, rising inflation has been a concern in many regions worldwide, and this may also continue to be a concern in the medium term. Inflation has led to decreased purchasing power for consumers, reduced consumer spending, decreased investment, and slower economic growth. The specific causes of inflation may vary, but it is likely to continue to be a challenge for Machakos County and other regions.
25. Climate change has posed significant impacts on the macroeconomic conditions of the region. Machakos has suffered erratic weather changes, such as prolonged droughts which has reduced agricultural productivity and led to decreased income for farmers. Moreover, climate change has led to increased costs for businesses and households, such as increased energy costs leading to a reduction in consumer spending and investment in affected areas, further slowing down economic growth.
26. It is important to note that the extent of the impact of these factors on the economy of Machakos County in FY 2023-2024 and in the medium term will depend on the size and diversity of the local economy, Government policies, and the overall resilience of the business community.
27. Taking into account of these factors, the 2023 County Fiscal Strategy Paper therefore articulates priority economic strategies to be implemented under the Medium-Term Expenditure Framework for FY 2023/24 - 2024/25 in order to provide an enabling

environment critical to return the economy back to long term growth path while at the same time continue safeguarding livelihoods, jobs, businesses and industrial recovery. Towards this end, the Government will undertake targeted strategic interventions to support the realization of the County agenda as well as promoting economic growth for improved livelihood.

3.2 County Strategic Objectives, Programmes and Priorities

3.2.1 Agriculture and Co-operative Development sector

28. The sector is composed of the Directorates of Crops, Livestock, Veterinary services, Fisheries and Cooperative Development.

Vision

Machakos County to be a food secure and wealthy County anchored in innovative and competitive production, processing and marketing of crops, livestock and fisheries products.

Mission

To improve the livelihoods of Machakos County residents and ensure food security by promoting innovative and competitive crop and animal husbandry practices through creation of an enabling environment and ensuring sustainable natural resource management.

29. Agriculture is a crucial sector in Machakos County as it contributes significantly to employment, food security, economic growth and the overall wellbeing of the citizenry. The Government has been implementing various programmes such as provision of free certified seeds, pasture seeds, subsidized farm inputs, fish fingerlings, vaccination of livestock, implementing programmes to support smallholder farmers and promoting the use of appropriate farming techniques.

30. The effects of Covid-19, inflation and climate change has affected agricultural production, livestock sales, market functioning and income generating activities creating a food security threat in the County and the country at large. The County is

planning to implement the following programmes over the medium term to cushion farmers from these adverse effects;

Increase agricultural productivity

31. This will be achieved through provision of quality farm inputs to farmers, soil and water conservation, pest and disease control, expansion of irrigated agricultural land, soil fertility management, holding farmer's and stakeholder exhibitions and trade fairs, expanding land under cultivation through mechanization, and promoting a community-based model. In addition over the medium term the County will promote one product one location, establish propagating units, and Construct two silos to enhance on post-harvest management and map ecological zones.

Enhance provision of agricultural extension services

32. The County will over the medium term recruit more extension staff, improve the work environment, support e-extension and digitalization of farmers, improve mobility of staff, enhance linkage with research and development partners, promoting climate-smart agriculture innovations, establish a staff recruitment and retention programme, and enhance equity in extension provision. Further, the County will identify appropriate technologies in animal health, promote information dissemination and capacity building of veterinarians.

Improved Market accessibility

33. Improving market accessibility for farmers is crucial for enhancing the income and livelihoods of farmers in Machakos County. This will be achieved through;
- i. Establishment of produce value addition infrastructure which is aimed at adding value to agricultural products and making them more marketable.
 - ii. Post-harvest management- This will ensure that agricultural products reach the market in good condition, enhancing their marketability and increasing the income of farmers.
 - iii. Provision of market information which will provide farmers with up-to-date information on market trends, prices, and demand, enabling them to make informed decisions about what to produce and when to sell.
 - iv. Promoting produce aggregation and group marketing is essential that will enhance market accessibility for farmers.

- v. Collaboration of the Government with development partners and research institutions to develop new products and technologies which will enable farmers to produce high-quality products that meet market demand. Further, the collaboration will also create opportunities for farmers to access new markets, enhancing their income and improving their livelihoods.

Promotion of Livestock Keeping and Disease Control

34. Over the medium term, the County will implement the following programmes to promote livestock keeping.

- i. Survey and zone beekeeping areas, promote stakeholder participation, and promote agroforestry and forestry.
- ii. Upgrade the ATC poultry unit to produce improved chicken and support farmers to raise commercial flocks, promote black soldier fly farming, and train farmers in local feed formulation.
- iii. Promote high-quality feed propagation materials, implement soil fertility management, and facilitate seed multiplication by model and lead farmers.
- iv. Organize farmers' groups into co-operatives, zone potential areas for feedlots, and provide training and market linkages while exposing stakeholders to alternative livestock enterprises.
- v. Establish a research centre in livestock keeping /production
- vi. Construct cattle dips and abattoirs

35. To enhance disease control, the County will ; enhance disease surveillance, sensitize stakeholders on the Animal Disease Act, adhere to livestock movement regulations, enhance mass livestock and dog/cat vaccination, establish a strategic vaccine stock, ensure adequate staffing levels, and rehabilitate the veterinary diagnostic laboratory and capacity build officers on emerging livestock and fish diseases

Climate change mitigation, resilience building and adaptation

36. Environmental conservation is fundamental to growth of the economy. Over the medium term, the County will implement the following initiatives that are geared towards mitigating climate change effects ;

- i. Mainstream climate issues in agricultural policies.

- ii. Develop livestock livelihoods resilience policy that will support the sustainability of animal husbandry by providing guidelines and support to farmers for adapting to the changing climate.
- iii. Strengthen the agricultural early warning system that will further help farmers prepare for potential climate-related events, allowing them to make informed decisions to mitigate damage to crops and livestock.
- iv. Promote agroforestry and on-farm water harvesting and conservation to help farmers adapt to climate change by preserving and conserving natural resources such as water and soil. .

Revitalize Machakos Agricultural Training Centre

37. Machakos Agricultural Training Centre (ATC) is an important institution for agricultural education in Machakos County. To revitalize the center and enhance its capabilities the County will modernize the farm and training facilities.

Ensure quality control in slaughterhouses.

38. Ensuring quality control in slaughterhouses is crucial for protecting public health and the environment. To achieve this the County will ; ensure effective enforcement of public health and environmental, enhance inspection of all slaughter points, staff and capacity build meat inspectors ,promote public-private partnerships in the management of public slaughterhouses, construct and refurbish slaughter houses within the County .

Promotion of Co-operative Societies

39. Promotion of co-operative societies is a vital program for enhancing economic growth and development in Machakos County. The Co-operative societies will be promoted through; extensive training of management committees; training, promotion, and registration of new co-operatives (including those owned by women and youths), provision of seedlings, fertilizers and training to improve coffee production, Youth and women sensitization on benefits of co-operative societies, promotion of value addition to enhance marketability of products, digitalization of all co-operative operations, Promoting artificial insemination, technology and equipping co-operatives with coolers, milk cans and value addition technologies.

3.2.2 Health Sector

Vision

A Universal leader in provision of holistic health care and emergency services

Mission

To provide the highest attainable standards of quality health care which is dynamic, affordable, accessible, equitable, acceptable, sustainable, efficient and effective to all
Sector Goal Improved livelihoods and health care services for residents of Machakos County

40. The County is committed to improving access to equitable, affordable and quality healthcare services through promotion and provision of integrated and high quality curative, preventive and rehabilitative services that are accessible, responsive, and accountable to every citizen of Machakos.

41. In the FY 2023/2024 and the medium term, the County will focus on;

- i. Refurbishing /complete of health facilities (Level 4s, 3s and 2s) to meet international standards as prescribed by World Health Organization (WHO);
- ii. Devolve health services (Primary health care) to level 3s and 2s.
- iii. Completion of ongoing health facilities;
- iv. Ensure Installation and sustenance of a digital HPT management system for monitoring use of medicines and medical supplies and integrated health system;
- v. Expansion of pharmacies in Level 3, 4 and 5 facilities so as to adequately equip pharmacies for both inpatients and outpatients.
- vi. Expansion and equipping of rehabilitative services in high volume Level 3s, all 4s and 5 facilities to cater for increased need;
- vii. Renovate laboratories to standard designs by World Health Organization;
- viii. Digitization of radiology services. This includes Installation of Digital X-ray in Mavoko and Mwala L4, Installation of Ultrasound in Mavoko and Mwala L4 and Completion of Digital X-ray in Kathiani L4.
- ix. Stewardship in antimicrobial resistance (AMR) for Implementation of CASIC (County Antimicrobial Interagency Stewardship) workplan co-prepared with Department of Agriculture, Environment, Water, NEMA.

- x. Identification of the site and Installation of pharmaceutical waste disposal system at Machakos Level 5 HQs for safety.
- xi. Employment of additional Human Resources in Health
- xii. Operationalization of the public Health Acts and policies which help in ring fencing public health funds.
- xiii. Capacity building and empowerment of all healthcare personnel in their respective areas.
- xiv. Providing 20 beds to one level 3 in every ward
- xv. Equipping level five with medical equipments (machines radiotherapy , and cervic cancer)
- xvi. Create awareness through outreach medical camps in every ward.

3.2.3 Energy, Infrastructure and ICT Sector

Vision

To provide cost-effective and modernized infrastructure facilities and services that support economic growth.

Mission

To provide efficient, affordable and reliable infrastructure and energy for all.

42. Infrastructure investment is key to County Government's efforts to grow the economy, empower the communities, create jobs and empower small businesses. For this reason, the Government will significantly invest in roads, ICT and energy.

Expansion of roads and transport network

43. Over the medium term, the County will continue to invest in expansion of road network to reduce cost of transport and promote competitiveness. This will be through;

- i. Designing and construction of the following new bituminous roads and access roads; Kathalani-Kaviani-Nzaikoni – 3.2 kms ,Gossip Phase 3 – 3.9 kms and Katangi-Kithimani road 44 kms

- ii. Maintenance of existing roads and road-related infrastructure through marking of roads , pothole patching , installation of signage and grading and gravelling of access roads (Barabara Mashinami Initiative)
- iii. Marking of roads to guide traffic and ensuring road safety;
- iv. Installation of signage to provide information to road users;
- v. Grading of roads and
- vi. Installation of drainage facilities that is drifts, culverts and gabions
- vii. Tarmacking of major within the County
- viii. Provision of ferry in masinga
- ix. Repairs and maintenance of existing bus parks

Enhancing accessible, affordable and reliable energy

49. Access to stable, reliable and affordable energy supply is critical to uplifting the welfare of the citizens, enhancing productivity of businesses and accelerating the realization of the County agenda. Over the medium term, the County Government will pursue avenues which will generate affordable and reliable energy supply such as partnering with the National Government to enhance rural electrification, promote use of renewable energies through Solarization of all health facilities, government offices, mulika mwizi, and street lights, use of Wind and Biomass and replacing of high power consuming bulbs with LEDs. Further the sector will construct a min grid for Machakos County, formulate of policies and regulations that govern the energy sector and the promotion of alternative clean and renewable energy sources.

50. Further in order to curb insecurity, the department of energy will install streetlight and floodlights in all markets.

Promoting use of Information, Communication and Technology

51. Promotion of ICT is important as a means of reducing the cost of doing business and enhancing efficiency in service delivery. In light of this, the Government will continue to invest in ICT infrastructure and improve efficiency and effectiveness in service delivery. To this end, the Government is in the process of digitalizing the health services, revenue collection and data management to enhance service delivery.

Public Works

52. The key roles of Public Works department include designing, constructing and maintaining public infrastructure, planning and implementing development projects, ensuring compliance with building and construction regulations and providing technical advice to other County departments. The department's activities are essential for promoting economic growth, improving the quality of life for residents, and ensuring public safety in the County.

53. Through this department, the County will ;

- i. Construct new bus park at Machakos
- ii. Construct official residence of the Governor and the Deputy Governor
- iii. Construct various projects at Machakos New City
- iv. Complete and renovate; Ministry of Transport, Roads & Public Works office block Staff houses at Matuu County Lounge ,Executive washrooms Matuu, Office block (thin tall building)– the remaining three floors and finishes, Boundary wall at County Headquarters, Cabro making plant ,Construction of Toilet, car parking Canopy & waiting area at Machakos County Offices , Boundary wall at Ministry of Transport, Roads & Public Works office.
- v. Installation of solar panels for lighting and power supply to the Ministry of Transport, Roads & Public Works office.
- vi. Construct Deputy Governor's office

County Transport and Fleet Management

54. The following will be undertaken under this programme

- i. Fleet expansion and maintenance -All vehicles, plant and machinery to be maintained
- ii. Construction and renovation of county garage workshops
- iii. Registration of all unregistered county vehicles in to county registration number plates
- iv. Insurance of all insurable vehicles
- v. Implementation/ operationalization of Machakos County Transport Policy

3.2.4 Public Administration

55. Public Administration Sector is comprised of Office of the Governor, County Assembly, Devolution, County Public Service, County Public Service Board, County Attorney and Finance, Revenue and Economic Planning sub-sectors.

Vision

A leading sector in legislation, public policy formulation, co-ordination, supervision and prudent resource management

Mission

To provide overall leadership and policy direction in resource mobilization, management and accountability for quality public service delivery

56. It provides overall leadership and oversight in the management of the County affairs through co-ordination of policy formulation, implementation and tracking of results for effective service delivery and equitable development. This facilitates an enabling environment for accelerated and sustained economic growth through pursuit of prudent economic and fiscal policies and coordination of County Government financial operations.

57. The sector aims at achieving its objectives through;

- i. Promoting good governance by strengthening institutional structures on ethics, integrity and civic engagement.
- ii. Enhancing collaboration and partnership with national Government agencies and other non-state actors through continuous engagement and updating the existing database of all state and non-state actors operating in the County.
- iii. Enhancing adequate inclusion of PWDs in public forums (especially the visually impaired and the deaf) through recruitment and involvement of sign language interpreters and provision of brails and other assistive technologies.
- iv. Enhancing adequate dissemination of public policies by developing public policy dissemination framework (standard operating procedures)
- v. Development of disaster risk profile, implementation of disaster mitigation and preparedness plans, co-ordinating timely responses to disasters and emergencies and stakeholders' engagements in support of disaster management in the County;

- vi. Enhancing revenue collection efforts by implementing modern revenue collection systems and expanding its revenue streams, improving expenditure management by prioritizing development projects and implementing efficient procurement processes, ensuring accountability and transparency in fiscal management, publishing regular financial reports and engaging stakeholders in the budget-making process.
- vii. Enhancing strategic leadership in coordination of decentralized services through maintenance of law and order, disaster management and ensuring excellence in public service delivery by availing the necessary human resource in the most effective manner
- viii. Provision of leadership in promotion of County governance through effective legislation, oversight and representation
- ix. Capacity building and training for staff / verification of workers (staff audit) to enhance effectiveness and efficiency in service delivery
- x. Constructing sub-county offices
- xi. Installation of biometric machines in Government offices
- xii. Enhance mobility of inspectorate officers through purchase of motorbikes/motorvehicles.
- xiii. Recruitement of officer under inspectorate and revenue
- xiv. Purchase of scanning machines /radio calls
- xv. Rebranding the inspectorate through change of uniform
- xvi. Purchase of uniforms for administrative offices
- xvii. Refurbshiment of conference halls
- xviii. Leasing of ambulances
- xix. Construction of modern fire engines station
- xx. Purchase of fire fighting equipments
- xxi. Purchase of Audit system
- xxii. Enhance interconnectivity of County Offices
- xxiii. Purchase of Ict equipments

3.2.5 Education, Youth and Social Welfare

58. This sector is composed of sub-sectors of Education, Youth Empowerment, Vocational and Skills Training, Sports, Gender and Social Welfare.

Vision and Mission

To be a regional leader in provision of ECDE services, youth development, mainstream gender, sustainable social welfare support and vibrant sports activities.

59. The sector's overall goal is to increase access to early childhood education, training, youth employment, promotion of sports and improving the livelihood of the vulnerable in the society. To achieve this the medium term strategy will therefore, focus on:

Investing in Quality early Childhood Development and Vocational training

60. The Government is very keen on Early Childhood Development as it's the foundation of education. The County will endeavor to develop the ECDE programme by improving ECDE infrastructure through construction and completion of fully equipped ECDE which are disability friendly and recruitment of enough well trained ECDE care-givers. Provision of quality and relevant education and training under Technical and Vocational Education and Training is key in equipping the youths with the skills and technical know-how necessary to spur industrialization. For this reason the County will focus on;

- i. Improving vocational training infrastructure,
- ii. Recruiting more VTC trainers
- iii. Subsidizing training through County vocational grants,
- iv. Construction of one centre excellence –TVET in every Sub-County
- v. Equipping one TVET per ward
- vi. Construction of a youth service at Machakos
- vii. Establishing a talent centre in Machakos and Yatta

Strengthening the social safety net and empowering the youth and the women

61. The County overall goal is to promote youth employment, sports and improve the livelihood of the vulnerable in the society. To achieve this the medium term strategy will therefore, focus on:

- i. Establishing a revolving fund for the women, youth and the PWDs.
- ii. Constructing and equipping independent living and empowerment centers, rehabilitation centers, children and elderly homes home and GBV rescue centers, as well as providing care subsidies to elderly persons and children's homes
- iii. Civic empowerment and capacity building for various youth and women groups
- iv. Partnering with National Government to register and capture data for persons with disabilities, and equip and operationalize a disability board.
- v. Provision of assistive devices to assessed persons with disabilities and offer disability mainstreaming training to stakeholders.
- vi. Counseling, rehabilitation, and home integration for street children and truants, while upscaling the Inua Jamii programs.
- vii. Provision of bursary to needy students in Machakos
- viii. Construction, equipping and upgrading of stadiums and playing grounds.
- ix. Provision of sports equipment and create a marketing plan targeting sports associations.
- x. Construction and equipping of youth empowerment centers, talent sourcing and development, increasing capacity building and sensitization of the youth on various opportunities available to them.

3.2.6 Water and Irrigation Sector

Vision

A national leader in the management and development of sustainable water resources

Mission

To contribute to County development by promoting and supporting water resource management to enhance safe water availability and accessibility for all

62. Access to clean and safe water and sanitation complement efforts towards improved primary health care and productivity of labour. In addition, adequate supply of water is essential for increased agricultural production and manufacturing activities. In recognizing the importance this sector plays, the County will implement the following programmes;

- i. Reticulation of water from boreholes and dams to water points.
- ii. Drilling boreholes and rehabilitating existing ones.
- iii. Construction of dams and desilting of the existing ones.
- iv. Installation of water treatment plants
- v. Construction of elevated water tanks
- vi. Construction of water dams and water pans;
- vii. Establishment of a County water laboratory to ensure water quality control.
- viii. Construction of gabions and water weirs, which help to prevent soil erosion and retain water in catchment areas.
- ix. Expand existing irrigation schemes.
- x. Improve existing sewerage System and Sanitation Management
- xi. Construction of dams with treatment plants
- xii. Purchase of equipments including, shovels, tippers, excavators, boosters and two drilling rigs.

3.2.7 Lands Environment & Natural Resources Sector

63. This sector comprises of the following sub sectors: Lands and Physical Planning; Housing and Urban Development, Environment & Natural Resources and Climate Change.

Vision

To be the leading sector in land administration, sustainable urban development and management of environment, natural resources

Mission:

To facilitate improvement of Livelihood through land management, sustainable urban development, access to decent housing and sustainable management of environment and natural resources.

Enhancing Urban Planning and sustainable land Management for Socio-Economic Development

64. Land as a factor of production is critical to economic, social, political and cultural development. Secure access to land, sustainable land use planning and equitable distribution of land remain immensely important for food security, employment creation and the socio-economic development of the country. In order to support achievement of the County agenda through this sector the Government over the medium term will;

- i. Revise the valuation roll
- ii. Digitalize the building approval process
- iii. Develop GIS online land records system.
- iv. Management of land records and database.
- v. Tailoring capacity building and improving conflicts and disputes resolution mechanisms on land matters through public sensitization
- vi. Preparation of the County Spatial Plan.
- vii. Machakos County Physical Planning Guideline/Manual and Machakos County Land Use Policy
- viii. Enhance Issuance of title deeds
- ix. Conducting Surveying of public land.

65. Urban development plays a key role in economic development through maintaining, establishing, strengthening and managing urban institutions and promotion of infrastructural development. Over the medium, the County will;

- i. Partner with development partners to manage waste, storm waters and maintain the roads and drainage systems within the municipalities.
- ii. Enhance standards and sustainable housing and infrastructure for staff and also adopt urbanization by improving the standards of existing County Government houses.

Environment and Natural Resources

66. Environmental conservation plays a critical role in achieving the sustainable development. The Government will create awareness on environment and climate change issues, Mainstreaming climate change activities in County projects and programs and provision of tree seedling to the citizens. In addition the County will

- i. Implement Multilateral Environmental Agreements and programmes

- ii. Restore all degraded landscapes, rivers & wetlands,
- iii. Implement the Climate Change Action Plan and coordinate implementation of both the National and County Environment Action Plans Promote renewable energy, improve on energy efficiency in buildings transportation and industrial processes to significantly reduce greenhouse gas emissions.
- iv. Implement environmental and climate Action-plans
- v. Develop of waste land fill
- vi. Carry out enforcement, monitoring and Surveillance on environment related issues
- vii. forest conservation and reforestation programs to preserve existing forests and restore degraded lands
- viii. Carry out Environment Impact Assessment and Environment Audit
- ix. Rehabilitate denuded land and degraded rivers
- x. Regulate quarrying, mining, natural stones masers, natural soils/clays
- xi. Promote of nature-based enterprises (Apiculture, tree nurseries, landscaping activities

3.2.8 Commercial, Tourism and Labour Affairs Sector

67. This Sector is comprised of sub-sectors of Trade, Industrialization, Investment, Tourism and Labour Affairs. One of the core functions of the sector is to create conducive environment for trade, investment, tourism and industrialization.

Vision

Making Machakos a nationally competitive County of choice for Trade, Investment and Tourism.

Mission

To promote sustainable economic growth through Trade, Industrialization, Tourism and decent job creation

Creating a Conducive Business Environment

68. Trade sub-sector aims at creating a conducive environment for business development and job creation. The Government remains dedicated to creating and sustaining a more

conducive business environment to attract investors and promoting trade through industrialization and increase of private investment. Towards this end the Government will;

- i. Construct and maintain market sheds; fencing and upgrading of livestock markets in the entire County.
- ii. Construct and maintain modern toilets across the County to ensure hygiene and sanitation.
- iii. Hold more business conferences, trade fairs and exhibitions.
- iv. Capacity build and constant Training of the department personnel on their area of specialization.
- v. Construct Jua kali sheds to reduce the rate of unemployment in the County
- vi. Construct and upgrade of boda-boda sheds across the County.
- vii. Establishment of the Machakos Enterprise Development Fund.
- viii. Establish Wikatyo Fund
- ix. Construction of modern kiosks and modern bus stops
- x. Construction of industrial parks that will increase self-employment.
- xi. Increase integration and adoption of international trade, increase stakeholder engagement on international trade through conferences, seminars and round table briefings.
- xii. Develop an industrialization policy and industrialization master plan
- xiii. Construct of an office block and a one stop shop
- xiv. Research and feasibility study to ensure investment growth.
- xv. Increase stakeholder trainings and engagement on climate change action and adaptation (Adoption of green energy technologies in industrial development)
- xvi. Operationalization and commissioning of Jaw crusher
- xvii. Verifying and inspection of weighing measures and equipment
- xviii. Integration Trade and industrial licensing.
- xix. Construction of Machakos export processing zones
- xx. Construction aggregation and Agro-processing plant
- xxi. Construction of storey market centres at Masii, Matuu, Kalama, Machakos, Masinga, Tala, Katangi,

69. Tourism is an important sector in the County, since it contributes significantly to the growth of the economy. With this realization the County will ;

- i. Construct new recreational parks and rehabilitate existing parks and mini parks.
- ii. Promote Sports Tourism
- iii. Promote tourism sites within the County
- iv. Create tourism circuit
- v. Mapping of tourist attraction sites
- vi. Marketing the hotels in Machakos
- vii. Construction a rehabilitation centre
- viii. Completion formula 3 circuit
- ix. Introduction of new tourism products to increase number of tourism activities across the County and partnering with the local community in projects within their locality for diversification of the existing tourism products.
- x. Construction of one Cultural/ heritage center, museums and traditional Kamba homestead and adding value to the existing cultural spaces for Preservation of Akamba culture.
- xi. Documentation of cultural heritage and doing research and promotion of Kamba culture and cultural artifacts. Advocacy for cultural policy, creative arts policy and Creation and implementation of a film policy
- xii. Construct, renovate and complete Machakos amphitheater.

70. The culture sub sector will in the medium term

- i. Enhance cultural knowledge through public awareness , sensitization
- ii. Participate in KICOSCA as well as in Kenya music and cultural festival.
- iii. Enhance registration of cultural practitioners and trained groups for public entertainment during public celebrations.

CHAPTER FOUR

4.0 FISCAL POLICY AND BUDGET FRAMEWORK

4.1 Overview

71. It is worth noting that the County has just developed the County Integrated Development Plan for the period 2023-2027. In the preparation of the FY 2023/2024 and Medium Term Expenditure Framework, the County has taken into consideration programs outlined in the CIDP, this being the first year of implementation of the five year plan.

72. The fiscal framework has also been guide by the Governor's manifesto which is anchored on three pillars of Food Security, socio-Economic Empowerment and infrastructure Development. Further, the framework prioritizes prudent fiscal policy as a commitment towards sound financial management practices as entrenched in the Public Finance Management Act, 2012.

73. The focus for development expenditure will seek to ensure equitable development while making provisions for any marginalized groups in the County. There is need to refocus efforts on key revenue streams, broadening the tax collection base in order to increase revenue collection through adoption of a unitary revenue collection platform

4.2 Fiscal Responsibility Principles

74. As outlined in the Public Finance Management Act 2012, the County Treasury shall enforce the following fiscal responsibility principles.

- i. the County Government's recurrent expenditure shall not exceed the County Government's total revenue;
- ii. over the medium term a minimum of thirty percent of the County Government's budget shall be allocated to the development expenditure;
- iii. the County Government's expenditure on wages and benefits for its public officers shall not exceed a percentage of the County Government's total revenue as prescribed by the County Executive member for finance in regulations and approved by the County Assembly;

- iv. over the medium term, the Government's borrowings shall be used only for the purpose of financing development expenditure and not for recurrent expenditure;
- v. the County debt shall be maintained at a sustainable level as approved by County assembly;
- vi. the fiscal risks shall be managed prudently.

4.2 Performance Review

4.2.1 Fiscal Performance

75. In the FY 2022/2023 (current Financial Year), the County's approved budget was **Kshs. 11.60 Billion** comprising of **Kshs. 9.16 Billion** Equitable Share, **Kshs. 610 Million** Conditional Grants, **Kshs. 133 million** NHIF reimbursements and **Kshs. 1.69 Billion** as targeted Own Source Revenues. During the Financial Year, the Budget was revised to **Kshs. 12.6 Billion** comprising of **Kshs. 9.16 Billion** Equitable Share, **Ksh. 732 Million** as balance carried forward from FY 2021/2022, **Kshs. 892 Million** Conditional Grants, **Kshs. 133 million** NHIF reimbursements and **Kshs. 1.69 Billion** as targeted Own Source Revenues. The increase in conditional grants was occasioned by balances carried forward from FY 2021/2022.

76. Table 2 below provides a summary of the overall County's fiscal performance as at 31st December 2022

Table 2: County Fiscal Outturn FY 2022/2023

	Printed Estimates FY 2022/2023	Revised Estimates FY 2022/2023	First Half Performance FY 2022/2023

4.3.4 Resource Envelope

79. In view of the continued pressure that arise from wage bill and limited resources, MTEF budgeting will focus on adjusting non-priority expenditures to cater for the priority sectors. The financing of County budget priorities revolve around two main financing sources namely; transfers from the National Government and County own source revenue. The total revenue is projected at **Kshs. 12.45 billion**. The shareable revenue transfers will amount to **Kshs. 9.54 billion**, **Kshs. 431 million** in grants, **Kshs. 300 million** for NHIF Reimbursements, **Ksh. 100 million** assets disposal while the County projects to collect **Kshs. 2.08 billion** accounting for 77 percent, 3 percent, 2 percent, 1 percent and 17 percent respectively. Table 6 below illustrates the County projected revenues in the medium term.

4	NHIF Reimbursements		133,492,346	133,492,346	300,000,000
5	Asset Disposal		~	~	100,000,000
	Total County Allocation		11,596,315,959	12,610,752,230	12,448,697,379

4.4 Criteria for Resource Allocation

80. The following criteria guided the allocation of resources for the County entities for FY 2023/24 and over the medium term:

- i. **Compliance with legal Requirements** - Requirements for furtherance and implementation of the Constitution, PFM Act 2012, PFM regulations 2015 and other relevant fiscal regulatory frameworks.

- ii. **Non – discretionary expenditure** ~ In the recurrent expenditure category, non-discretionary expenditures take the first charge and include statutory obligations such as salaries, gratuity and pension
- iii. **CRA ceilings** – The ceilings provided by the Commission on Revenue allocation for the Executive and County Assembly have to be adhered to first before allocation to the other County entities. In relation to this, the Executive comprises Office of the Governor and County Public Service Board.
- iv. **Development expenditures** are shared out on the basis of CIDP priorities as well as strategic interventions to boost revenue base and stimulate the economic growth as outlined in the National Government Policy documents, the Governor’s Manifesto and views of the Public as collected during the Public participation exercise held from 13th to 16th February 2023. **Annex V** provides a summary of development issues raised during the public engagement forums. The development expenditures are estimated at 30 percent which is a fiscal responsibility requirement
- v. **On-going projects:** emphasis was given to completion of on-going capital projects and in particular infrastructure projects with high impact on poverty reduction, equity and employment creation;
- vi. **Conditional grants:** priority was also given to adequate allocations for donor funds both own contribution and the donors contribution as per the Budget Policy Statement provisions
- vii. **Strategic policy interventions:** further priority was given to policy interventions covering food security, access to healthcare, infrastructure, social welfare and environmental conservation

81. The criteria outlined above helped in developing ceilings for each County Entity as tabulated tables 7 and 8 below.

Table 7: Summary of Budgetary Allocations FY 2023/2024

	Printed Estimates FY 2022/2023	Revised Estimates FY 2022/2023	Proposed Estimates FY 2023/2024

Annex V: Key Priorities Identified During Public Participation

Ward	Village	Sub sector	Priority/Description
Kalama Sub-County			
Kalama	Kakayuni	Water	Mega Dam , Wamoi-Syuumi river New concrete dam; Reviving of Yongoni borehole ;Scooping of Kanyonge Dam Drilling of borehole at Kwa Sammy Maithya; Change of Makaviu borehole from Solar pumping to Electricity
Kalama	Kimutwa	Trade	Market Shade , Kimutwa market
Kalama	Kimutwa	Water	Scooping New Dam , Kimutwa River Kwa Siloni
Kalama	Nziuni	Water	Scooping New Dam , Kwa Makosi Iiani village; Desilting and enlarging of Muthwani and Manyulu dam ;Reticulating of Kyaviti borehole
Kalama	Kaathi	Water	Drilling new Borehole , Kaathi primary ;Desilting and fencing of kwa simba dam ;Desilting of Kwa Kakuli dam; Rehabilitation of Kwa Ngonyo well
Kalama	Kiitini	Water	Drilling new Borehole at Kwa Kisingu in Kamuthini village; Scooping and fencing of Makulani Dam ;Drilling of Kisasini borehole
Kalama	Kyanzanzu	Water	Scooping New Dam , Ikiwe river ;Desilting and fencing of Kyanzasu Dam ;Installation of solar panel at Kyanzasu borehole
Kalama Ward	Kinoi Village	Water	Drilling new Borehole , Kinoi primary
Kalama	Konza	Water	Drilling new Borehole , Joseph Nyoike's land; Scooping of new earth dam
Kola		Water	Scooping New Dam , Kwa Mwavu dam Scooping,Enlarging &fencing
Kola		Water	Scooping New Dam , Kwa Masani dam
Kola		Water	Dam Desilting & Fencing , Lumbwa dam,rehabilitation of treatment point
Kola		Water	Scooping New Dam , Kya Nzoia dam
Kola		Water	Water Reticulation , Mingalala borehole Power installation & reticulation
Kola		Roads & Transport	Grading, Gravelling & Culverts road ; Kyakitove stage-Kyakitove primary-Kwa Ndavi
Kola		Roads & Transport	Grading, Gravelling & Culverts road; Nzaini-Kamalingaly-Muumandu road
Kola		Trade	Market Shade , Katua market, Kula market - Market shades and public toilets
Kola		Agriculture	Farm Inputs , Certified seeds and fertilizers
Kola		Devolution	Construction of Ward administration office
Kangundo Central	Muisuni	Roads & Transport	Grading gravelling and culverts at Kwa Kimatu - Ndendwa - Kambai - Kithatani - Mwanyani -Kavilinguni road Kwa Kimatu-Masewani primary ABC Mesewanito kwa Kitaka slaughter house Road
Kangundo Central	Muisuni	Water	Drilling new borehole at Kangundo Town
Kangundo	Maiuni	Water	Drilling borehole at maiuni Assistant Chiefs Camp Katanga Market
Kangundo Central	Maiuni	Health	Construction of dispensary at Chiefs Camp
Kangundo Central	Mulingana	Water	Construction of a dam at Mulingana village Kwa Musyoka dam
Kangundo Central	Mulingana	Health	Construction of health facility at mulingana land available at chiefs camp

Ward	Village	Sub sector	Priority/Description
Kangundo Central	Isinga	Health	Completion Ngiini Community Hospital- payment of land owners and completion of the facility
Kangundo Central	Isinga	Water	Drilling borehole at Kyangwasi/Unyuani Villages
Kangundo Central	Matetani	Water	Rehabilitation of Matetani Springs and elevation of water tank
Kangundo Central	Matetani	Health	Construction of dispensary at Maseno
Kangundo East	Katitu	Water	Rehabilitation of Katitu Borehole
Kangundo East	Miu	Water	Drilling new Borehole , Kithuiani Primary
Kangundo East	Kathome	Water	Dam Desilting & Fencing , Kwa Nzambu Dam, Reticulation
Kangundo East	Iia Itune	Water	Drilling new Borehole , Matumani Borehole
Kangundo East	Ngumuti	Water	Drilling new Borehole at Ngomani and Kithuiani Primary Schools
Kangundo East	Kivi	Water	Drilling new Borehole at Kivi Vocational Center
Kangundo East		Water	Drilling new Borehole , Kithunthi and Katheini SA church; Dam desilting at kwa mathala and kwa Nduu dam (kavilinguni) kwa katiso/kwa Thiogo dam and Ngombe dam (kiatune)
Kangundo East		Trade	Completion of market and public toilet at kamanzi and kivaani
Kangundo East	All Villages	Agriculture	Timely supply of certified and subsidized fertilizer and seeds to famers
Kangundo East	All Villages	Social Welfare	PLWD Program , Facilitate C.B.O to reach out to neglected persons
Kangundo East		Health	Construction of new dispensary at kwa njaa njaa (kithini) and Nguvuti village
Kangundo North		Water	Drilling new Borehole , Kwa Ndiu Primary School , Kamutonga and Kwa Musau Wa Yanga
Kangundo North		Health	Construction of New Dispensary , Kikambuani Public Land next to adjacent to Chief's Office
Kangundo North	Kiliku	Water	Drilling new Borehole , at kwa Musau Nyange
Kangundo North		Health	Upgrading Ndunduni Dispensary from level 2 to level 3 Construction of dispensary in public land adjacent to kitwii chiefs camp; Construction of a dispensary in public land adjacent to kanzalu chiefs camp
Kangundo North	Kawauni	Water	Drilling new Borehole , Kivulini Village kwa Kisau , reticulation
Kangundo North	Ndunduni	Water	Drilling new Borehole , Kwa Kalekye Ngao
Kangundo North		Water	Drilling new Borehole , at mbilini cattle dip or mbilini coffee factory
Kangundo North	Kitwii	Water	Drilling new Borehole , Kwa Kiiti Nzioka
Kangundo North		Roads & Transport	Grading, Gravelling & Culverts , Kwamwilile - Kawauni Dispensary - Kwa Mbalu - Miu Road
Kangundo North		Education	New Vocational Training Center , Kwa Katunga government land
Kangundo North		Water	Drilling new Borehole , Mbilini Cattle Dip or Mbilini Coffee Factory

Ward	Village	Sub sector	Priority/Description
Kangundo North		Water	Drilling new Borehole , Kwa Kiiti Nzioki to serve Ngamba, Uamani, Kayagii, Savatia & Nyekini
Kangundo North	Kitwii	Health	Construction of New Dispensary , Kitwii Village
Kangundo West	Kathaana	Water	Drilling of borehole at Kathaana Village/Kithongoni Village Constructions of weirs along the rivers-new weirs along kathaana,mukunike,kawethei,mbusyani and usia rivers
Kangundo West	Kithongoni	Water	Construction of dam at Kithongoni Village
Kangundo West	Mukunike	Water	Dam Desilting & Fencing of Kwa Kiloo and Kwa Jimmy dam
Kangundo West	Muthwani	Water	Drilling of borehole at Muthwani in kawethei village
Kangundo West	Mbusyani	Water	Drilling new Borehole , Drilling borehole at Ndeini/Kikondenini
Kangundo West	Kyevaluki	Education	Construction Vocational Training Center , Kamwanyani Vocational Center at kyevaluki village
Kangundo West	Kyevaluki	Agriculture	Fruit Tree value Addition Facility , Kangundo West
Kangundo West		Health	Construction of a hospital at kawethei market.
Kangundo West	Kyevaluki	Trade	Upgrading of kakuyuni market-construction of drainage system ,cabros,market planning and new streetlight
Kangundo Sub county	All	Education	Allocation of bursary to be increased;Additional ECDE teachers
Kangundo Sub county	All	Energy	New mulika mwizi to be installed at katheini SA ,Kaseve Kaseveni and Kilindini markets
